Hi Art

I will try to send you a printed copy of the ship, a few normal, and a couple Image processed to bring out some detail, viewing it on my computer looks better than a printed copy, since you lose some details. The ethereans gave my mentor a ride beyond our Solar system, while they told him that they were what were called the "Angels" in the Bible, this surprised my mentor because he was a Catholic at the time (all the members of his tribe and relatives had been converted to Catholicism by the earlier Christian missionaries) . My mentor Jim said that after talking to them for 30 minutes he was no longer a Catholic. He looked for wings but did not see any on them. They told him that they were the ones in the Bible where Moses communicated with the "Lord in a cloud", and that when Ezekiel saw a wheel with a cloud of fire and whirlwind around it, it was a space-ship, and that they were the ones who took Jesus up and would be the ones who would be bringing him back (they used the word Jesus instead of Joshu I believe because my mentor was a Catholic). And they also taught him ETHEREALIZATION which is a science of teaching people how to get their own answers from Creator and not rely on someone else's. They told him that ETHEREALIZATION meant FREEDOM through REALIZATION, freedom from the control of other people's thinking and realization of TRUTH. They also showed him how stars and planets are created and how the Earth looked like a star from far away, and that a star looked like a planet close up, later they also told him that they wanted to help establish a community on earth, the Father's kingdom on earth as it is in heaven on their planet. They told him that they would be back and next time the whole world would see their ships. After a 7 hour trip through outer-space they brought him back to earth, and the ship rose up in the air and took off. It was someone who had heard his story that they told him that OAH SPE talked about the Ethereans and the Etherean Ships. The Ethereans taught my mentor that God the Creator was not a man, and was not in the image of a man, but is an Invisible Spirit that had no shape, weight, or density, and could not be measured, and that Jesus was not our savior, we save our selves, and that people who believe in a savior are not accepting their own responsibility.

I live in San Diego County California,

Best regards, Peace and Goodwill to you
Michae
