TRANCE JAN 26 / 03

Greetings:

A day of achievement in that there is happiness and love in abundance from these areas to your area of the earth. I will address the question of the Blue Keys and the significance of what is happening. That Wayne and Margie may understand and send these words to those acceptable in their knowledge to benefit from this session.

It was given to Wayne during the session in Las Cruces N M and at a previous time that there would be keys that would open some of the doors that have locked people in the heavens to a system of belief that

encompasses them and encircles them and making them somewhat oblivious to what is the real situation.

The first encounter of these keys came to Wayne as an image of something that would unfold the real blue sky of the universe. The keys would unlock the barrier of the canopy of the heavens revealing that the path to enlightenment is locked to a belief system.

In symbolism it was the only way that the communication could be made. To see seven great keys turn and open the superficial heavens up to the real blue sky like condition that we see in the daytime. The keys were symbolic of the churches and the many religious bodies that came into being because of the Oahspe. Wayne is only familiar with the U F K and the Global Council Sect, but there will be seven and perhaps more of these small Religious groups that, because of the book Oahspe, have bound people to the strict disciplines that the Oahspe dictates.

This information has been given to Dan, Wayne and some of the close friends within the new founded Society of the One All Light. That religion has come to the end is the message that was given to many. It is being given now through these contacts and it is of utmost importance that this message is placed in the forward of the Oahspe.

This is the time for growth and if the Oahspe becomes a Religion than growth stops and the full meaning and purpose of this book will remain hidden for a longer time. Because of some very dedicated people the Oahspe will soon become world known in many different languages. Therefore it is also part of the responsibility of the society to explain this in their documents.

India, this country has been an example of two great Religions that control the people who have come to war with one another. They hold cattle and animals as holy and are a dedicated vegetarian society yet they behave in a manner less than desirable. There were groups in past with similar views as the Society that were trying, like you are, to expose the dangers of Religion.

THE CHANNEL

The messages necessary for stimulating growth in your Society have been transmitted successfully through Wayne. At each session one from our side of the veil will use Wayne to transmit these words. We are happy to have this method as well as the dreams and visions that come to him that stimulate action from Wayne.

The new Page of the Society of the One All Light is the channel that is now for many thousands of people to become comfortable without religion and to live “within” the Presence of the Creator.

QUESTION

Dr Dan has recently come across the channelled papers done by the Es'ean community years ago. These papers appear to be very significant, and he was curious if these papers are part of the blue keys mentioned last year?

ANSWER

In answer to question no 1. Yes, these papers definitely are part of the answers but in a more in-depth order. The seven blue keys that Wayne mentions only skims the surface and generalizes the meaning to be the way

that people have needs to worship and have formed church groups in which the rites and ceremonies of old are kept alive.

QUESTION

The Es'ean papers are supposed to be kept secret. What should we do with this information? Continue to keep them secret or let others know of them who may be receptive to the teachings?

ANSWER

It should be given to consider that if the value of the message were for all then it would be best to expose the contents. If the value of the information is to be kept secret till a specified time, then it will be information and knowledge for those concerned.

If it were to remain secret it would have been channelled in a code that would be given to those who the message was for. The message and its contents then would not be revealed to any that read it.

About secrecy and the value after this day; as this was necessary in times past to keep secrets about Societies, Religions and certain Organizations, it is not necessary anymore. Man has now reached the plateau of understanding without having to keep secret any of his newfound information.

To reveal without offending is a task that will get easier as time proceeds. The revelation of the new Society of the One All Light has, in itself, caused some offence to many as the foundations of their beliefs have crumbled.

THE EMANCIPATED HEAVENS

How much can be revealed to you? Is the Creator forever to be in disguise to you?

It seems like it ended by leaving a question for us.

Wayne

2002 Wayne Sturgeon Trance Session
Global Council Conference
Las Cruces, New Mexico
June 22,

I represent others. [Pause]

There is a message that is of very much importance to all of you and to the organization that is being represented here this morning. I bring greetings from our group to here. You don't need to name me, but I work as a guardian of this group and I will be using Wayne, and I will bring information to you. We have to adjust to Wayne's body. [Pause]

Several years ago Wayne was taken by two of our fellow brothers to a land, in spirit. He was taken to a land that was full of pyramids, in which he confirms that he is a son of God, or as we say within our group, Jehovih, the Great Spirit, or our Creator. We all have our name on a plaque in some distant place. We are all children of the Father. We are all Sons of God.

[Voice changes to higher pitch]

The angels showed me this, and they said, "Wayne, there is something else I want to show you." And they took me arm in arm over this small town. And it looked like there were many homes there, like I was looking down into little buildings, smaller than this building here, some maybe this size, but a lot of them smaller, with chairs and tables. And I saw these people sitting on chairs and tables. And I could see down through the ceiling. I don't know if there was a roof on it. The people in one of these rooms were about 24, maybe 26. They were sitting on chairs and they were like around tables on each side. And they looked like they were feeling uncomfortable. They looked like they were undecided people. The looks on their faces was a face of indecision. There were some teachers in my youth that were there. One of them in particular I know was a brother and he was there. There were other teachers and two of them were nuns, and I don't know their names but I recognized them. And the brother's name was Brother Kevin. And the rooms were hundreds, as far as you could see. And these are what you would call places of containment, or these are what you call in the Oahspe, knots and hells, but not as drastic. These rooms were full of people that were not able to make a decision, and they were not able to make a decision because they were not able to think clearly. They were using the decisions that were made by others many years ago to judge

their life. I asked the angel and the angel told me. I said, "Why are they like this? What is wrong?" I said, "Why don' t they go out those doors to the lawn and see the grass, the green grass?" The green grass was there and there was some bright light on it but you couldn' t see the light. The windows showed that there was a lawn outside, but the windows weren' t open. The people couldn' t leave. They didn' t leave. And the angel said, "They can leave any time they make a decision that they have had enough, and they can move on to other areas, better and higher."

And this is a message that I am telling through Wayne tonight that came to him several years ago. It' s important that you know this. This is a message that I' m giving tonight.

The Oahspe is a very powerful book, and Wayne uses it for guidance in his life. There was many special events that brought Wayne to this place tonight. He has been prepared for many years, and many things have happened in Wayne' s life. And we got him out of many jams, and we' ve seen him get into other jams, and finally wøe got him so that he can think and reason somewhat, but stubborn.

We make our homes. The heavens have many mansions and we make them. We are the creators of our heavens, and the Oahspe has not the biggest but one of the biggest and greatest heavens. I' m going to tell you about this. It is a beautiful place, so beautiful. It was made by the people that have read the Oahspe and have used it in their life and have died, and now they are in their heaven. And this heaven has a canopy over it. And this canopy is like the sky. And this heaven has many beautiful stone curved walls, beautiful engraving, just like if it was done by the very masons themselves that made the temple. It was the most beautiful place in the world, but on the edge of this heaven, there' s a window and we see Dr. Newbrough there. And he could look at us and we could look at him.

And Dr. Newbrough says, "I am inside this room because there are seven churches now that have been built. And these churches with their beliefs are preventing me from rising up to the very heavens that I wrote about. And it' s because of these barriers, it' s because of these walls that have been placed there, that are holding me down. And I' m not allowed to go in my own heavens, and I am not allowed to go into the churches. I' m in this room."

And I tell you this message is from Dr. John Newbrough, and we can

help him. He is our brother. We are all sisters and brothers here. We are one together. We are making our heavens, and I ask you to be so careful. I ask you to use reason, caution, and I will give you something that I wish you' d consider, that we are all not made perfect. We all have our ideas, we all have good ideas, and we know that. And we all think that our ideas are excellent, and our ideas are excellent and they' re for our own self. And I warn people, and I place a double warning onto Wayne, too, that my opinions should never ever be held over other people as a law. The law is not necessary, and I cannot impose my thoughts or ideas or ambitions on anybody as in the form of a law. Because it' s the law that inspires fear and guilt, and if anything inspires or causes fear and guilt upon a person, man, woman or child, then it is not a good writing.

Consider the works of the Oahspe now as good for the time that Newbrough was there, and as a good book today, and it is a book that you can use, but use it with caution. We are building this heaven of ours now, and don' t put a canopy over it, and don' t turn it into a knot or a hell. Don' t make it into an Oahspe knot or a Kason knot. Just keep it free, without that top, without those walls. Keep it free, and then you will emerge onto the emancipated heavens that were written upon. An atom is to a drop of water as the orange is to the earth, and the Oahspe heavens are to the emancipated heavens in the same respect.

Wayne seems to have... He' s going to come out of this and he will do more to answer questions but ...he' s drying out.

[After a break, session resumes]

[tape continues] They are from the mind of Dr. Newbrough and as ... there were some changes made in the writings of the Oahspe, and he wants you to realize and understand that there was a lot of inspiration that was not necessarily of a higher level on him, and were also pressures put from other mortals while he was alive that caused some alteration in the Oahspe. And there' s some of it you never will see again, and there may be some that will turn up, but I can' t dwell on that. It is important that you look at the Oahspe, and I want you to take and look at the Oahspe, and I want you to look at it with a magnifying glass because it is worthwhile doing. And examine it and see if it' s suitable for today. See if it can fit into this year. See if it will fit into today' s world. And question the Oahspe. Look into the laws and see, see for yourself.

I will try to answer questions for you, and I am allowed to give,

there are many that are using Wayne, but I am the spokesman, and I will try to answer questions for you. You may start.

What can we do to make sure that trance messages always come from the highest source?

You have to come... His hearing is not very good, and he just hears some mumbling over there somewhere, so come close and tell him harder.

What can we do to make sure that trance messages always come from the highest source?

This is a question that it is very difficult for me to answer because I am not exactly from the higher source because I am limited by Wayne. And Wayne is at one of the levels that he is open with, and we can channel through him from the higher source, but it has to be filtered down through the levels of heaven, and you would call that, from the different resurrections or the different areas and plateaus of the heavenly groupings. And Wayne is receiving this from one of the lower levels with information that came from on high.

[Pause] I hope that helps you somewhat.

Somewhat.

Could you explain the blue key that was mentioned in an earlier tape?

The canopy of the heavens that have been created by the thoughts of the mortals that have followed the Oahspe, and this also applies to many other bigger heavens created by many powerful religions under the four powers of darkness now. And the keys are the keys that will unlock the canopy. And the old scriptures talked about the heavens as being a big, big, big cover over your world. This cover is the limits of the Oahspe. And the Oahspe is not to be used as the final, final, final say on things. And the churches that have been formed, as these are dismantled and the keys are taken from the church, and that unlocks the canopy of the heavens. And I am saying seven keys, and it opens up to the new blue of the new and emancipated heavens, which can never be attained and the reason being is that they have not been all created by us yet. It is our thoughts that create. This is the way of creation. Never underestimate what we are.

[Pause] Seven churches. I don' t know exactly. I' ve been told to tell

you that, and I don' t know if it' s from the Oahspe or if it' s groups or ...
Dr. John Newbrough' s

[Pause] We set on ourselves the, and you can ask Wayne about this, his Holy Bible of King James, an expensive Bible he bought that he read at five o' clock in the morning for nine years on his knees. And then he found out that he was so deceived, and he was so hurt. And then he found other supplementary Bibles and the same thing. He went from religion to religion to religion. He was told not to do that. He' s not to be used for religious purposes. He' s not to be used for that. And he is using the Oahspe as a guide in his life, but it' s not his guide. It' s part of his path, a very important part of his path, but only the beginning of the search, and a search we all do. ... I will try to answer more for you.

Can you tell us where the original manuscript for Oahspe is located?

[Pause] I cannot. I will be back with that. You can ask me other questions and I will get back to that one. The originals, there are more than one set that were original, but the written material that was done on the original typing is what you are asking? Or the plates that were used?

The original typed pages.

I am not able to answer that for you yet. Ask me other questions and I may be able to locate an answer to that. [Pause] It' s more important that you continue and add your own material now to the Oahspe, well chosen for these purposes, and already many things have been given to you which you can use ... as to book and chapter now, ... to go back in the Oahspe and examine it all closely. There should be some things now that are not suitable for this year of two thousand..., this century ... Check it, examine it. Magnify this law and see if it' s suitable for today. Mankind now should not be under a burden anymore. He was given the freedom and let' s not ... no book take that from him.

The plates, some of them are within a building, and there' s some that are not there anymore. And that' s all that I can ... I do not get a clear description on that yet. It is because it' s best not to seek too much, he says. He says, do not seek too much.

[Pause] The keys will unlock ... the experience.

Yes, the keys, the blue keys. Are they tied in with the founding of the Jehovih' s Kingdom on Earth?

The Jehovih' s kingdom on earth is not quite the same as the keys. It

is because if the change had not made use of the Oahspe as a law or a religion that binds, then these keys. And any groups that read the Oahspe as a religion that is binding should not do that. And then the keys are given to unlock the Oahspe heavens. And the people then will be free to go, and John will be able to return into his kingdom without being

Literally Jehovih' s Kingdom on Earth do you know what date or time period this is going to start being established in, the foundation?

The foundation was started in .. At the time of the channeling of the Oahspe was the basis of the foundation. And the kingdom of heaven is not literally as a .. It is a kingdom of heaven that you will see, and it will be forming on this continent when people will be at peace with one another in their own communities. And there' s a massive invasion of higher energy. The people are going to stop wanting to be as they are. It is hard for me to give you full information on this because I don' t have it all. But the Kingdom of Heaven is not exactly as was written in your Bible. The Kingdom of Heaven was referred to from a heavenly second resurrection group that had their kingdoms there, and they want the earth kingdom to be like the second resurrection, where people have left the compulsion of the earth, and the strings of the earth that draw them back has to be gone from them. And this is going to be. It is already started, and the killing will soon be ending. But I give you another clue that it is a time that will be brought into coming. But it is a time that is, to me, not a nice time on the earth. And the yellow fever can come in many disguises. Be cautious with things. There is at a time of a new age and there' s troubles, we know that' s true.

This country has got many problems that are caused by other countries. Mankind is given freedom of choice and free will. And at first it was used to have restrictions on him. But the time is over now. It is time for man to really think on his own. It is time for man to move and be without the law. Because it is the law that is the wrong thing. It is the law that is doing the killing. People kill because of the law and the guilt and fear complex that' s given to them. That' s when people kill. If there was no law they wouldn' t wake up in the morning and want to go over and kill somebody. Man is born not to want to kill, not to want to steal. It is the law that is wrong. It is the law. Examine things that bind you. Break free from that and open your heavens and create and get free space in there, freedom. And the blue keys, as we are closing the laws

that bind, then it opens up our kingdom that is there now. We rise to get through the canopy of the heavens, to get through. Because I very much want to be in that kingdom, but I don' t want to be in a kingdom that has many ... walls and ceilings and ceilings and walls that I can' t get over. I want a kingdom that I can walk through and have a key. I want a door at each end, and I want to find truth where I want to look, and not be under the influence of somebody' s thoughts of two hundred years ago that says this is best for every man and every woman and every young child. No, I don' t want that. ... I can answer two more questions.

And the plates and the documents concerning with the Oahspe - I cannot answer that question because I am not., I don' t have., I don' t know the answer, and I cannot give it to you. I am limited by Wayne. I' m limited by Wayne, and you know that there' s limitations just without being from him.

Could you give us any advice on how we can help your efforts better?

We don' t know because we should look at it as the new age. We still are living in the old age with rules and the old books. But we should move into a new age where writings will not be as important as what your thoughts are or as much as the helping hand. Be helpful, and I know that you are, but that' s more important than reading the laws of old. The old laws of old were for the old times, and this is the new time. And there were so many laws that man needed the laws because he was only in the early part of his evolution. But the perfect being, man, that one being is being formed, and now when he' s ready to evolve into the higher part of his mind to use. And this is the time. The next hundred years will be the time where mankind will raise his levels. And you will work in the first resurrections closely with the earth' s people. And the bondage of the evil dark spirits will be releasing and you will feel it many times each day, the darkness gradually going away. And this darkness is like a beast that devours. And the darkness is composed of deceit and temptation and of the evil things. This is what the darkness is.

What can you tell us is the spiritual significance of the September 11 terrorist attacks within the United States? The spiritual significance please.

It' s one of the ways to show you that it is the law that leads the people to do these kinds of things, because they believe in their Bibles

so much that they will kill for the words that were placed in their Bibles by the thoughts of men thousands of years ago, and these thoughts of these men that said this is best for all. But it is not best for you, and it is not best for Wayne. It is not best for any angel, man, woman, child or animal. The time is over for laws, and even within the community and the organized departments of the business portions of your communities where the meetings are held, they soon will be eliminated, and there will be people with new ... who show light to limit the amount of control over us and attempt a lot of the dismantling of the ancients, and gradually will be doing it and have the structures there and be able to receive this big change that' s coming. And the vegetarian this is important as this will be used as the examples of the future. And it will gradually be at the time when there will be a vegetarian kingdom that will be thriving on the, the voice of from the second plateau will be showing us new foods that are rich and nourishing, and they won' t be lacking anything. There will be fewer foods, but they will be foods to fill and not to hurt or kill.

I will have to leave. I bid you farewell. Farewell.

Farewell, brother.

Wayne Sturgeon Trance Session
Global Council Conference
Las Cruces, New Mexico
June 23, 2002

Greetings, greetings, and greetings. Brothers and sisters, greetings to you from this realm of the heavens, with much confusion these few days. Many activities are happening up here, and this we want you to know, that many things of inspiration now will be coming to many of you that are within this group that is present here today. And ones that have left also will be finding inspiration to them that will be helpful soon.

Great blessings to all of you, and greetings. I have no name but I represent many. I have a message that I would like to extend to you this day, and I ask you to take it and analyze it yourself, and if it' s useful for you, to use it, but if it is not within your scope, then don' t use it, but just think, just think on these words, and in no way do I impose this upon you.

Man and the animals. Man and the animals. The animals have parameters and limits and boundaries that they cannot go out of. They are destined to remain within the kingdom of the spider or the robin or the beaver or the fox. They all have their limitations, and the Oahspe explains that very well. There is no need to be explaining this to my brothers and sisters because you know the limitations that were given to the other creatures. But you also know that man was one that, after a period of time, was given freedom, freedom to do whatever he wanted to do. So man now was different than animals. And man now was free at that time, and at this time, to do as he chooses. And man normally is a gentle being. Man normally is a kind person. This is inherited in him from the very depths of creation. Man is meant to be kind.

Animals are both. They go from ferocious like the wolf, the lion, and the cunning of the fox, to the gentleness of the lamb and the cow and the sow. And inspecting these things are important for you, to just think about. There is a law for the animals, even the ones that eat each other, or the ones that are eating flesh. And that is a boundary, and is a law and a boundary for them, but this is what the Creator has decided for that. And there are other animals that are free to graze, and the herbs and grasses are their foods, and the roots and things for many of the the sows are foods for them. And with mankind, mankind has got freedom, but he also has freedom to impose restrictions on himself, and laws. And this I want to make very plain and clear to you, that we cannot continue, we cannot forever continue to have laws, because they are one of the major problems that makes man into a boundary. We create a law, and we' ve created man now as an animal and a carnivorous one that will do like the fox and the wolf. In expressing this I hope that you can understand what I am saying. It is a very important message to you.

Things are being .., In the heavens..., There are recordings being done and there is a grading of people and mortals. They are being graded now and, not just at this point, but many of the nations in the area from the bottom end of this continent to the very ice fields of the bays and the lakes above. Evaluations are being made on people. I bring you this. There is activity now in the heavens, and there is lots of rejoicing and happiness. There always is. There' s a lot of things happening, and even some are watching on that are interested in what' s happening. There are spirits that are as what you would call undesirable that are watching on, and this is okay. They are allowed to do this. And

be prepared. The next time period, the next span of several months till the end of the year there will be contact made with mortals, and it will come in many forms and will maybe be in dreams and visions and in the meditations. There will be information given as it has been done before. I bring you this message, and blessings to you.

I have to relax him now, and I hope I have made this message clear to you. I hope that this message is clear to you, that when mankind binds himself to any law, then he has created a boundary. And we are at the time now, at the time where the boundaries and religions of course are on their way out, and it is sad to know, but these things have to be known. And I hope I have brought this message to you clear. The things that are happening in the heavens are a very good thing, but I can say only that things are being evaluated and, much traffic, much traffic. [Pause] I will try to answer some questions for you.

What is the true intent of our gathering for this weekend?

Would you repeat that question one more time to him?

What is the true intent of our gathering for this weekend?

The true intent of our gathering this weekend. Just a moment. The true intent of our gathering this weekend. Okay. This is a milestone. It is the end of a cycle and the beginning of a new cycle. It is where the omega turns at the angle. It is the beginning and the end of a cycle. I have no further knowledge, but it is a period that has been planned for, and there were other events on this cycle, and I' m not sure the name of the cycle. I am not sure of these things. I hope this is of some help to you.

Yes.

The activities of man on this country of North America: Man by his own laws has made himself his own enemy. And he' s using his own military people that are his own brothers and sisters, and the freedoms are being eroded away. And this will stop, but first many things will happen and people will be opened, eye-opening for many now. Their spirituality and the spiritual senses of many will be opened, and understanding of the cycles now will manifest unto many. And communication with us to the people, some within here and many others, will be continuing and at a more rapid pace. And there will be changes to do with the Christian religion. There will be a change

coming, and it may want to attach to some other unit of religion. This may be coming in the next two years. I have no further information on the religions. I could answer more questions. I will have some time now to answer some questions.

Did you say that changes in the Christian religion will come within the next two years?

Yes, I believe they will be joining, something like Siamese twins is the only expression I can tell you, but they will be as one, one body, and a big, big body. A big body and a big change, I give you that.

Thank you. I have another question. What will guide people when there are no laws?

What will guide people when there are no laws. When there are no laws for man, the guidance is already there because it is the guidance that will take the laws, and when you have no laws, you have no crime. And man will be taught the consequences of his actions instead of the penalty of guilt. And fear now and guilt will dwindle and will be eroded away. It is not a good thing to impose laws. It causes fear and guilt. And this is the cycle now that is at hand. And the cycle that is at hand is not understood by Wayne, and it' s just to tell you it is the end of a cycle and the beginning of a new one, but it is not the Kosmon cycle but a cycle within that. I know nothing else on this for you. Is this question answered suitably for you?

Yes.

In an earlier session it was told to us that there would be a spiritual movement coming out of that country called India. Do you have any information about India?

The thing with the people of India is that there will be groups very similar to this Faithist gathering that now is. Similar activities will be happening throughout India in several places and you may hear about that. There will be contact. I' m not at liberty to ... There are other groups like yours, like this group, and they also should be advised that the laws have to be changed and so that mankind can operate under the law of freedom and the removal of the laws of binding. Man now needs no more bondage. It was important for man to be under control, but now man is ready. Man is ready. India is closed for me. Sorry.

Thank you.

What can we as a group of people who live very far away from each other, scattered around two countries, what can we do as spiritual people to raise, to bring each other together? Is there anything we can do as a spiritual group of people when we live so far away and scattered?

The question is what can we do as a group that is unified together but separated by distance. It is advisable to be active somewhat in your own community. And the connections that you have, your internet connections, also is a very... It' s possible that many messages can be relayed this way that will help. But it' s not just help you to gain knowledge, understanding, and wisdom. It is more that we must assist those that are within our own community. The kingdom of God, Creator, Jehovah, is already existing to some extent within the cities, and when the burdens of the bondage of the law can be relaxed and removed in a proper sequence, then you' ll know that the kingdom of God is here, because men will be operating at their highest light. Man will be operating at his highest light when the laws are gone. It was a purpose, it was like a medicine for many years, but man has risen above that. Is there some satisfaction to that answer, I ask you?

Somewhat. Is there anything we can do to help improve the quality and nature and clarity of this mediumship?

This... I will answer the other question first. It is very important now that there should be divisions set up that will enhance the people that are interested in the writing of music. And the new age will produce the new music and songs. And they were aware of the instruments of this last five days that were being heard from up here. And this now. That question now... And music is important, and these writings can be, and grouped into emotions, and the love, and the spiritual, and the seeking and finding the keys to the Creator. And these can be placed into books and that will be knowledge for all of us, and we, of course, are groups similar to what you are there. And I am representing 122. 122 of your brothers and of your sisters are with us It is a day of rejoicing for us.

Can you tell us any more about who is speaking right now?

Yes, this woman is..., it is a woman, it' s ..., there are several, I don' t know who you are.

No. Who is speaking through Wayne right now?

Oh, the misunderstanding of this is... Just a minute please. It is the conscience of our group, 122 of us. It is our conscience now that is related to the spirit, that we can be able to accompany with Wayne' s spirit and relax his spirit and use his organs and his mouth and his many.... We can control, and we have permission from his guardian angels to be able to manipulate, but only his voice.

What have you to say about Faithists publishing works together? Publishing together. Any advice on that?

Publishing works together. Yes. The internet is a place now where these But the tree will grow and the two vines will grow immensely, and there' s no need to worry about the amount of growth, because one may not grow, and it is not intended to grow, but still a necessary part of the nourishment needed, for the ego, for the nourishment, for the man, for the being. And we are not to tear apart, but we are to add new. And these decisions that we will be giving, you will be receiving inspiration for your calendar first January New Years. Your calendar New Years day, you will be receiving, many of you will know at that time the decisions that you will make, and they will be good. You' re not able to do wrong decisions and don' t worry if your minds change. It will be peaceful and good for you. Blessings to you all.

Thank you.

Farewell, and love and blessings to you, sisters and brothers, from us all.

CALL FOR HELP

“Come quickly to the earth” was the call heard by our elders. A distress call now more noticeable than ever. God now was becoming visible. No more just a name to be called on and to have faith that there was such an entity. The darkness now was leaving for some of the people on the earth. They listened to the voice from within was telling them that it was doubtful

whether He even exists as we had been taught.

Mankind was clinging on to the old books that were bringing him down. The more he used the scriptures to enlighten him, the more darkness was created. The book blocked the light, and it became very hard to see. Reason now was also leaving because it too was in the shadow.

Within this shadow the beast was fed, and was the rising force on the planet. To kill and destroy was its mandate. Cunning and baffling were his attributes, and deception was his lure. The beast was winning now and to be the emperor of his earth kingdom and of his kingdom in Heaven.

Meetings were held with the elders in the heavens, and the earth document was tabled. Has the earth, with the mortals, achieved a true success, they asked? Have we done well with this creation? Has mankind seen that the darkness was his own doing and the first of his own creations? There are openings now in the cloud of darkness. Some of the mortals seem to have had enough and have taken matters into their own hands. The elders looked at one another and laughed and rejoiced for this was truly a great occasion. A celebration now was in the heavens of the Light. Once man has seen the light, even if it is still cloudy and somewhat doubtful, he will grow and there will be no stopping him. Man now on the earth has enabled the divine spark to ignite the light and will increase over the earth like a tide that never ebbs.

Man at last had become aware of the God part of his being and this awareness was contagious and used as medicine. It would be like an ointment for the diseased planet and true growth will now overcome the man-made darkness. Man now will learn and move in a forward direction. Like a baby that has learned to walk was man now. The first few steps a bit shaky but the determination brought on by it will never let up.

How many times have they heard the words “God helps those that help themselves”? The consensus of the elders was that only a few more steps and our hands would be outstretched to help them. There were enough mansions

in
the heavens at this time. It was becoming like a stage or a zoo. The many denominations of religions now were filling the lower plateau and it was becoming but a mockery to us. As far as the eye could see there were kingdoms with enormous walls built to prevent the residents from seeing yet more similar kingdoms.

These heavens were the handiwork of their minds and their own creations. They were built like the belief systems had told them to. Their place in the heavens was now allotted to them. These kingdoms still being ruled by books
and systems of belief caused that cloud of darkness also to form.

God needs no book, because God is a living book of reason with pages of wisdom and understanding with outstretched hand. Chapters of loving compassion bound within the covers of the One All Light. This is our lot. It is as Gods as we were from the beginning. Even Gods have to grow. They grow
and learn because Gods have the best teachers and Gods can be their own teachers.

A new creation we were. From the earth we combined with the seed of the Angels thus we developed to be ruler over darkness. The Creator now had left
man to grow and blossom but there were times when man needed direction thus
the prophets were assigned to the various places of habitation and advice was given and freedom exalted.

In the proper cycles of the universe man was checked for growth, and new instructions, with the inventions needed to prosper, were inspired to man. The books and scriptures were as mere guidelines for overall living in harmony beside that precious gift of freedom. Man became more advanced and
used the books to protect himself. This he did by imposing laws. Man had the
thoughts from the immature god seed to rule by imposition for the betterment
of the human race they said. And darkness prevailed. Many times only brightened by some of the Prophets capable to reason and attract the

enlightenment from within.

Man had now many books from the ancient scholars and the prophets of old. They became his driving force and were man highest light. He understood the scriptures and used them as best he could and he tried to live by the contents of books. Then war was on the earth because man tried to defend his books. But some places on the planet had books that differed, and which they thought were best, so to promote these beliefs and books onto others, war and darkness now prevailed on the earth.

There were many men that didn't believe what the books said but they followed the book that was closest to their own mind and their own thoughts.

They fit themselves into a system of belief that was close to their own thinking. Man refused to use his own thoughts anymore; these books and scriptures now already did the thinking. Man lived by the words written thousands of years ago and he accepted these words as the best way for everyone. The rituals and the ceremonies of the ancients now were the way for man till this very day. The superstitions from the past now ruled man's thoughts.

The darkness was attached to man so much that it was hard to break free from it. But there were a few that did and the elders heard their cries.

“If there be a God then please help us”, was a prayer heard through the universe. And our elders heard this, inspiration came upon some of the people to look into the books and try them. They were inspired to think new thoughts. They were inspired to think like the God that they accepted as the Creator. Then God's voice came to the angels and the elders; come to the earth for it is at war and soon will be destroyed. Organize as many as required to inspire man to be peaceful.

Man and God now communicated and channelled information for the forerunners of the new age and Kingdom of God. The time of ancient creeds and doctrine now was coming to an end. God will not be smothered by the words of men.

Man

now was God and was aware of Angels and the condition of the dead. Man knew that the dead still lived and were to have everlasting life. Man was God but he only has recognized this for a few years only.

The fear and the guilt imposed on himself, by himself, had interfered with his growth. His growth was slowed by darkness; the darkness that he created.

Man, God and Creator were now about to have the wisdom capable for mans understanding. Man had created the darkness that now encompassed the world.

By thoughts of inspiration the God part of man can now develop and man will create this Kingdom befitting a God, for that is what man is. A God.

Ruling by assimilation and by imposed fear, by guilt, now had to be removed but it will be a big job. The earth and its inhabitants need light to grow. Where there is light there is growth and no stopping it. The light itself will overcome the darkness and will handle matters in a gentle fashion as a mother handles a child. All inhabitants of the earth will feel the fragrance and the essence of love. When breathed in, it will excite the growth of harmony with all mans brothers and sisters. With love and harmony peace is manifest. With peace God will manifest and create.

I leave these words now till more communication comes to me. It is a lot to digest and some of the words are new to me.

Sincerely

Wayne

PURGING

The director had called the meeting to order and a memo was then distributed. After a few minutes there was excitement around the table.

It was made clear by this memo that the higher elements had penetrated into some of the minds of the mortals on the earth. This was the freedom the Angels were wanting for so long. The Heavens have been populated so heavily with kingdoms and lost spirits that any light from higher elements never got through.

The systems of belief had cemented the heavens so hard and close to the earth that any light was, at best, artificial. It was like the earth was encased in a solid covering made up of stone clad beliefs. It had become impossible for man and Angel even to attempt thinking without the use of doctrine and scripture.

The director of Plateau of Angels told the meeting that freedom had been confirmed and areas now would be open for direct communications with mortals. "It was a long wait" was the reply of many, much too long. The armour of the beast had been penetrated and new light now will come to mortals.

Freedom, Freedom, Freedom, was called out loudly in unison. Our plateau now can sail to the beacons of light about the earth and we can now execute our duties as Angels of Light to mortals. A great celebration began as the new age had just got a kick-start, they all said. Freedom and liberty for all and the heavenly elixirs were poured unsparingly to all at the gathering.

The creator once again has shown that life within and life without is under the direction of the Creator. There is relief now to Angels trapped in the crust of belief that has held tightly for so many years. Freedom now will reign in a system of no beliefs or doctrine or values outdated by time. Man the All person now is being born into a new age and his evolution now matures a hundred fold at this time.

Because of false light both Man and Angels have been restricted in their learning, which was only of the thoughts of others. Now we will be able to

exercise our deprived brain that has been dormant like an unused muscle. Caution and surefootedness will be our design rather than speed and sorrow.

The infrastructures of a society in decline will pose many problems for us they said. But nonetheless it will be done and in the order of the Creator.

There are groups around the earth that have been impregnated with the same light and the process now starts to provide for the welfare of Man and Angel.

To administer such a powerful remedy would be like overdosing on strong medicine so we will gently apply the needed ointments to the diseased planet, Man, and Angel. We will work, hand in hand, and mind within mind to bring the earth and the inhabitants upward to light.

What will be our first course of change was asked. To provide for the needy was the unanimous decision. To give hope and refuge for the decline of their society. To feed them, a little at a time, and to help them through the despair of the emptiness of religion and creed. How will we organize to cover the many nations of the earth, was asked. It was answered unanimously that communication would be done at individual, one to one, contact and with group contact. Only by freedom can we gain freedom and freewill. We need always respect the views that have encased mankind as an illness that will take much care to subdue.

They said that their objectives have been fulfilled first from within and then from without, showing the ever presence of Creator. This now proved the realms of existence of Creator by showing light from within the illness.

The sequence of operation of the heavens and the earth within and without is always a circle or a circular path. Anywhere on the circle the power of Creator will manifest when there is a sincere desire to use it.

Creator is not that which is given to only a few so-called chosen, it is the being that we are custodians of and is a powerful tool that can change the course of worlds. Creator does not hide behind any doctrine creed or scripture because it is a life force for the existence of everything. Creator is not partial to any set of beliefs that has any rites or ceremonies as these, at best, are the will of man at the expense of causing binding and shunning freedom.

Several were discussing Creator and why it ever got mixed up with God. It was during the personification that all this took place and words like God the Father and the Son of God and Our Father in Heaven. It was during these times two centuries ago that started the darkness of ignorance. At that time, and for many years before, Creator was a daily part of man's life and many lived in harmony with the creator and respected the provisions from the planet. It is the same today, and proven again, that Creator cannot come from within scripture, creeds or doctrine.

The director again called for the attention of the sub elders and the address was given as follows. We are bearers of light that births wisdom. Our appointment is now beginning and we will be inspired also by the "Pockets of Light" that will be opening in various parts of the earth. There will be many opening the light of Creator so they will be visible for us. To have wisdom one must yearn for it and many now are doing just that.

Mortals will be calling out for help. You will hear their prayers saying, why have we been forsaken? Why have we been lied to? Is there any God? Why has Jesus not come to help us? Where are you God my Father in Heaven, creator of all things? Oh God help us, will be uttered through their lips and eyes. God Help us will be their prayer.

These mortals now have our attention and a framework to catch the upset beings will be set up. Very gradually they have to be weaned off a Man God into the intensive care of Creator. Precious souls within wretched bodies have become too numerous for the Angels within this section. And we are lacking help from without till openings of light can be enlarged. It is our purpose to amplify our connections to many that have the ability to understand spirit.

We will handle each person with special attention given to spiritual communication. "Mind within mind" As many as are open to this light then the easier it will be for us. Man will help himself as soon as he believes there is Creator. We will lessen the restrictions on material exchange, but under your own conditions, set with freedom foremost in mind.

Commentary; this came to me during the afternoon, something inspired me to go to the computer and write a poem. I do write a lot of poetry but this time there seems to be a message that may be important for everyone. I was not in any trance like condition just my normal self. However the room was very hot and I usually stay away till evening or morning when it is cooler.

Well It seems to have stopped coming now. Maybe I will try later .

Message Feb 4 / 03

Greetings:

The message I bring onto you is that which is desired from our group, “The Elders.” To bring to your mind that written material in the form of essays, scripture, and messages for mortals can react in two different manners. That is to say, that the effects of written words can “Concave” or “Convex” thoughts. Both have their desired place for all to benefit and the same message can deliver both types of thought.

On the significance of a book that brings both kinds of thought is as this example: A bible may, by the contents, bring the reader to a closer connection to inner thoughts and the uplifting of self as the Concave thought pattern is being used. This is, in itself, a valuable tool for the reader. It can improve one’s conscious awareness of the One All Light.

However, to continue on a concave thought pattern can lead to the deterioration of the convex thought patterns. This is an example of this. To attain to a great discipline of self, and to become as one with the One All Light, has little benefit to our neighbour, or the world as a whole, other than being a good neighbour within a meditative state continually.

The significance of a book that also can bring forth convex thought patterns along with concave thinking then is a book that unfolds the ways of the One All Light. Now, this is the message that we bring unto you this day. (I will rest him for a while.)

You (Wayne) may not be aware that you have been selected from choice seed, so to speak. It may be more understandable to say that your family lines have been inspired from groups, such as “The Elders.” The reasoning being only that your abilities to think and reason have been set to use both types of thought. Not that you are any better than anyone else, only that you have been selected.

What good is it to you if you learn to be in complete control of your self-discipline and to be able to peer into the depths of infinity? What good is it if your time is consumed by meditation while there is a need within the community? With these two questions you have also answered both. If a scripture leads only to inner satisfaction, without helping out the community, then real inner satisfaction is not really attained. (We will rest him for a while.), they

As these words enter Wayne, and in time will reach many others so the following message will be spoken. All, or at least most, of the mortals have at one time or another gone up to their special place on the mountaintop. By mountaintop, we mean to the place that you evaluate the world situation. Perhaps it is just a place where your mind goes to attain solitude. When at this spot your mind thinks as follows: What a sick world, looks like a war coming, more hungry children and starving people, why is it like this God? You ask. What has gone wrong with the world? is on your prayer. What can be done to help out? Is there a God? If so, then WHY ALL THIS MISERY?

You come down from the mountain. If only I could do something about this is on your mind. You continue on your walk in life. You go home and you go to bed. You wake up because you have had a vision. You have had a vision of this wonderful community where all the people are friends. You go to work, and you are at the office, or at your workstation, and you get the vision again, or you see some kind of a daydream before your face that is telling you that everything is going to be all right.

Lets talk about trust. If I could reach into his pocket and hand out some trust wouldn't that be wonderful? But trust is not a tangible item. Well, here is where Wayne will wake up out of this for sure if I say the following, "You Have To Take It On Faith." (We will let him rest for a while and continue with this topic.)

As Elders, because of interest and also because of future events, we keep close watch over you and your group. This is where the statement "Take It On Faith" can also have an effect on this side as your group of Elders, of

which I am a representative. It means that we too have to rely on what you can accomplish as mortals for the benefit of the whole community. Looking back for two years there has been many very great accomplishments. One of these great accomplishments has been the forming of the Society Of the One All light. This Society is the tip of the iceberg that will soon make known the power to the people of the world. The power of thought now is proven to be the one main creative force. By the faith that we have had in your group, this shows little doubt about the possibilities of group-planned thinking.

“TAKE IT ON FAITH” now has a different meaning. At least different than the old religious belief that, “With God All Things Are Possible,” and that it was the power of “God” that wielded forces to accomplish the wills and the desires of man. (We will rest him for a while).

It is within your grasp, now write words that can be used to exercise the convex and concave thoughts that we previously talked about. This type of thinking combined with Male and Female combined thought has without doubt been used to create just One of the many Societies that will form in the world because of your own creation, The Society of the One All Light.

Dear fellows of the Society please accept from us the only blessings that can be transmitted at this time. You have started a flame that will cover the planet with the light that has been lacking for so many years. You all are as bubbles of light that have been beacons for Angels to find within the illness the remedy to the health of man and mind. Be advised that the necessary plaques, complete with the documentation have been sent to those in charge of records of man.

Farewell,
Your Elder group.

TRANCE SESSION

FEB. 22/2003

Greetings to you in your room: I hope you are able to hear this message. Truth now, through your groups, you will now circle the world. Truth will now be free such as a bird flying from a cage. It is no longer to be kept inside. Your group is one. There have been meetings and great joy, meetings to do with your way to get the truth to the people. Excitement and happiness is extended to you from these on our side to you on your side. I represent but a group. You have some questions, I believe, for me, and you will ask these questions, and I will try to answer the ones I am at liberty to do.

Thank you. Yes, the first one I am asking is; is war inevitable, and, if so, how will this affect our efforts working with the Society of the One All Light?

The conditions of war, on the earth are, of course, inevitable but it will be in a time later on. It will be in several years time where there will be wars that may endanger your homeland and North America. This time the danger lies in that there are other activities of the terrorist people that may happen here, but we are not at liberty to discuss it, as it is not clear knowledge for us. There are wars that will be happening as the beasts of the religious activities are removed, and plagues, and these will be known as the religious wars, and there will be the Buddhists, the Christians, the Islamic as will as the Hindus that will be striving to maintain something that has to be removed. It is already happening. The war answer is as clear as I can state, as I do not have the knowledge for that.

O.K. Followers of the OAH SPE are now using the site of the Society of the One All Light. You know to promote the OAH SPE. What should be done, if anything, because we don't want it to turn into another OAH SPE site.

This is a question that I will be answering as well as I am able, and, of course, the decision has already been made that you will be leaving the OAH SPE site off of your new Society. It is not for the promotion of the OAH SPE as a religion, but the Society site may discuss some of the benefits of OAH SPE and parts that are meaningful to the Society. The OAH SPE is a book that is not to be condemned, but the parts of it that are befitting to those that choose bindings, and are not in Unison with the Society, then these people should be instructed to understand that this Society site is not the Society that is promoting the OAH SPE as it is used in a religious sense. Is this clear? The elders are gathering and this is the input we are giving to you. Is this clear?

Yes. Thank you. It clears up a lot of questions... Is there any particular time that would be better to have the trance sessions as other members

would like to join in with meditation at that time?

I am having a hard time hearing you. The answer will be in the two sections. First off, the session that we are doing at this time---the time should be known for two or three days in advance so that we can then decide who will use Wayne; and the other, or the other sessions, that are coming through Wayne it is the time which is not that critical (the auto writing at the computer). It is something that we can usually wake him up, and we can prolong his dream conditions, and he will get up and write these messages down. He has done this successfully with us in the past and it is usually done 'one on one' from the elders with Wayne and the messages come through because they are highlighted for us. This session is a group session where many of us are involved and these messages will get to the other members of your Society.

How much is the OAH SPE known in the Lower Heavens and in the other

Heavens? This question comes from another member, as indeed, the other questions have also.

The OAH SPE, of course, is known, and is the basis for the Lower Heaven named the OAH SPE Heaven, and is somewhat known throughout the Lower Heavens, and there are some areas that we would refer to as the Second Heaven or a plain which is not the same as the Lower Heavens. There is some knowledge there, but it is an exclusive book pertaining to some Heavens. There are some good points in it that should be, perhaps, moved into other areas, but this book is a restricted book and remains within the confines of the Heavens of the OAH SPE. I am not at liberty to say that this book should be promoted throughout areas as it is known in some areas, and it is known, where it is necessary, in the OAH SPE Heavens.

That is about all the questions I have for you at this session.

I will continue. That is a puzzling question that you gave me about the OAH SPE being known, and I want to remark that the OAH SPE has been taken too seriously and has done some things that are not for this time that we are in. Books like the OAH SPE and the many, many bibles and the many, many temple scrolls that are being put as the basis for religion now are coming to an end. There may be times that are also possibly coming to an end because of wars created because of these books. An example to be seen as mortals is like the great wall of Berlin. It was physically demolished and removed by mortal people some time ago. Now you will see this same condition in the Heavens as the boundaries are being torn down, and removed, and gateways, and doors and openings so that spirits can move freely over and around the boundaries of doctrine that man has encased him in like iron clad rooms. This message is what the primary purpose is that these walls will be torn down. Your Society will not be instituting it first. The Society now will be continuing on its journey to enlighten people to the dangers of religion and it will continue to embrace them and help them find shelter from the wolves and the visages of religion that has grasped onto their mind and belittle them as less than the Sons and Daughters of the Creator.

This is the termination of this message.

Farewell.

BEGINNINGS OF HEAVENS

Feb 14/03 AM

I bring greetings to all members of the Society, here and yet to come. We, and I include the Elder Group; have to confront the subject of the Heavens. The primary and available heavens are for all as learning. It starts at this level. The closeness of mortals and angels resonates with each other with inspiration as energy suitable for transmission of thoughts. The connection is inspiration that opens lines for the use of the five senses. This now becomes an extension of the regular senses.

At this age the keys to the heavens are at our disposal. To this day man has wandered along pathways in a matrix of thoughts and ideas that were supposed to be what was best for all mankind. The revelations from our heavenly kingdom have been but books and libraries on earth for mortals. When true or higher revelations tried to gain a foothold, it was overwritten by Creed and Dogma of the old society of man, leaving mortals on the carousel of belief systems and paths of old and ancient ceremonies.

Be aware of the immediate Heavens where communication comes from departed mortals. A heaven, or plane of existence, where manifestations of mortal forms and objects from mortal lifetimes, along with animals, can become in tuned to mortals by all of the senses. For many it is the key to higher understanding but comes with the limitation of the thoughts of creed and dogma. For many it is the college of communication from kin spirits that come with love by expression and closeness of being. The expression displayed is that they are but wanderers and bound by the same doctrine and dogma as they were bound with as mortals.

Their plea is that true happiness may be perused and the higher expression of love to orchestrate their lives. The doors and pathways to love are restricted by the systems that should be withdrawn from the Primary and the immediate heavens. They are dismayed when the opening of the door has

just led them to yet another door as if they are still seeking their highest wants and understanding while wandering as mortals on the planet.

Freedom to create is the area of development most desired by us as your elders. The learning to manifest by walking on time and building with thoughts befitting people that you have admired as higher will unlock doors of heaven. It is by this expression of thought while walking on time that the doors of the immediate heavens will open, and allow entry into greater domains.

This is our work, suitable for the founders of the Society and the learning of time and thought, for keys of creation. At this time it is known that at least one door has been opened that will allow our deceased kin to see and want to follow the path that can only be described as resonating love.

Sufficient for the moment is this writing.

Farewell

Elders through Wayne

KEYS TO FREEDOM

Greetings:

What has been anticipated for many years now is coming into reality. The keys to freedom, from law that bind both mortal and Angel, now unlock the realms of freedom. The tremendous overflow of regulation that was intended to enhance the condition of mortals now has restricted growth. The keys now have been given to us to use at our discretion. They can unlock those doorways and clear the way into the Heavens yet un-created.

We can be aware that we are part of the One All Light thus no less a child of God family. Although we are not in fullness of development, we have the power to call together those that direct and aid us in the

dispensation of healing. For it is the time now for the birth of the complete man. The depth of darkness is now showing in every aspect of our development because of the breeding of greed.

Doctrine has been the device that brings down nations. The very subject that was to bring man upward has turned on him by misuse. The messages of the prophets of old have been distorted, to have mortals needing salvation, through a set of beliefs that come from the shrewd thinking man. The same messages are now being transmitted to mortals and will manifest in groups such as the Society. The shabby devices of mortals to control by fear are no more being believed as the words lack potency.

With each heavenly kingdom comes now the key to freedom. The means to think and rise above that, which has chained him to darkness, is realized at this time. When these words to mortals and Angels find their way to those locked in walls of belief the doors will open and the walls lower. The doors, windows and the views will draw to the light of our creations that are ever becoming more refined by creative thought.

The dwellings of Angels, as we will be, are now being built by the thoughts of mortals as we live and think and are free of restriction. The beauty of the kingdoms, combined with love, unfolds daily. Heavenly manifestations are these dwellings suitable to kings and queens of the heavens. Not one piece of the heavens will be overlooked, but each and every place of self-confinement will be opened. The residents of these rooms will be instructed to higher realms by the creative refined thought of the Society.

The keys to freedom being first used by mortals now are transferred to Angels. The workings of the Divine now within the hands of Mortals and Angel guides will shape the destiny of the world. It is the freedom, with the power of humility that brings about the plan of the heavens. The building continues as each moment reveals the master plan and the direction now towards the light of the higher thought. No more dwelling places for the guilt ridden, as the tapestry and the fabric of time have been made as new and cleaned from past errors. Bringing forth the true Human Being. No more

self-imposed prisons created by earthly thoughts of doctrine that made these dwellings.

Please freely use the keys to open up and disclose the path of the greater thought. Use them to open every closet of darkness created by the cunning of the masters. Give them to those that were supposed to be our trusted servants to be an example of goodness. Let them open up their own doors of the rooms of discord and discontentment and be not their own prisoner anymore.

We will draw the power and the courage from our surroundings to continue the Society to bring the keys of freedom to Human and Angel.

Blessed you are and sufficient to the day.

IMPRESSIONS FEB 28 03

Greetings:

The journey we take, and the pathway we use, is the place where we leave the impressions of our being. Our life is being manifest as reality and is where we dwell by day and by night. The reality of life created by impressions left on the path. Is it an endless tape? Or is it the circle of life? This is the discourse of the matter tabled.

From birth till death, combined with the previous thought forces required for your being, becomes the hidden part of the pathway. Thus it is the beginning, from unseen to birth as a mortal, till death and spirit transfer. The transition of matter now becomes our death impression. The path rolls

onward and continues and impressions continue. Yes, they continue onward to the beginning? Perhaps, but how do we know as now it is the unseen and the ability to unravel its secrets now before us.

Much has been said about the unseen having dominion over the seen, leaving less doubt that we, living in the unseen realms, do as a matter of fact persuade the course of life. It is not a strange distant power source reigning in the unseen but a home of our selves on part of the circle of life. It is not strange and uncanny but composite of our own consciousness. It is also recognized and used by our subconscious to be a directive force for change.

Every emotion is written on the fabric of time. It is the impression that is tuned, as the wheel of time is maneuvered by the Psychic ability within each mortal. The impressions are left as emotions at the place on the circle “wheel” of life. The stronger the emotion the easier it is to retrieve the effect of this impression on the person’s life. Emotions with a negative power imprint most deeply on that fabric of the circle of life. All emotions are imprinted in the strength of its power to the fabric. If the emotion is less the impression then may be difficult to retrieve. This can be the difficulty that can bring emotional unbalance to the person’s life. A life without variety can lead to a depressive condition. Remember, “Variety is the spice of life”.

We are in control of our lives and are aware of the areas of control from the circle of life. To think that we are out of control now is not meaningful as we always control our lives whether consciously or subconsciously. We are on the right track and subject to ever increasing knowledge that brings about the mature person, MAN. The time is soon, to enter the world as newborn beings free from old habits of control. We can now be comforted with the ‘IMORTAL’ Being. Ourselves comfort us. We are born now into freedom.

Working together in harmony now permeates our newest thoughts enabling the power to multiply greatly. Keeping our thoughts in harmony with the One All Light now becomes the normal, not the wanted. By not being under the judgmental systems of belief bring harmony of thought and

will rapidly fill the void. As harmony of thought expands the power also creates.

Our waking conscious hours are feeding material for the subconscious. During our sleep time thoughts are selected from the great storehouse of the mind. As daylight and darkness operate like the wheel of life so the energy to keep the circle of life is pulled from the opposite side. The wheel always energizes by the force of the unseen or the energy emanating from the other side of the current time of being.

All beings of the same accord now can be the powerhouse of harmony. Rotating like a giant wheel, circle or vortex to bring about by creating. Like and similar thoughts keep the great circle of life going like a giant gyroscope rotating, always true, but when unlike thoughts enter, the wheel will wander off course and will only straighten if all thoughts become the same. The final combined thought derived by many different roadways of thinking to bring into being the final residence and community of the mature being the Mortal Mature.

The circle of life with the impressions of Angels and Mortals is the nourishment of the circle. As man feeds the Angels with the thoughts of mortals, so Angels feed mortals with instructions from the wheel of life. Harmony is now the sought energy, the ever-increasing force of creation.

Let us make our impressions deep and with the emotion of love. This garden, with the impressions, now is the storehouse of creation. It is the place where man and Angel gather knowledge. The power of humility, now combined with the energy of the circle of life, give us the responsibility to create and to create with the love of the One All Light being foremost with the thought.

Sufficient for the day!

THE SUBSTANCE

February 28 2003

Greetings:

The substance of it all is what we are and the connection not breakable by death, distance or time. None are greater, none are less, but all of the being of the One All Light. The custodians of an instrument of power so great that the transformation of person's places and the condition of world can be achieved. As freedom has transformed us into the desired residence, suitable for mortals, at this time we come under an obligation of higher thought.

Humility achieved by power, is the knowing that the secrets now are not the power, but the chain to darkness. The light of the All One shines from within and will guide and lighten our path chosen. The Light is the substance which we are, but in the unborn condition. Of everything is the substance no matter whether it is animal, rock or star. We can arrive at true substance by attaining the humility of thought that provides that knowing in all of us, that knowing that everything is under the master plan now being our foremost thought.

The plain of the Placid now becomes the clay of creation. With the tools of humility and love and a material of symmetry, ignited by frequency, now grows from the garden, much like an offshoot of the herb. The essence of the thought is now materializing in actions and objects. The womb of creation and the mould is made and in the time assigned will be born.

Love, and the power of humility, now nudges the thoughts growing in the Placid plain to be the gentleness lacking in the first creation. To unfold a new world suitable for the fully evolved “born” mortal is the undertaking of the Society. That we, as a unit, will rise at the time prescribed from the womb that the Society now provides is our responsibility. With the certainty of the Elders that anxiously wait their turn to co-evolve with us to Light unlimited will be the joint adventure.

The path of time, and our walk along it, will now be paved with understanding. Because we have traveled over the rough pinnacles on the walk of life we will be remembered as pioneers and suitable mention will grace the halls of recognition. It was our lights that shone through the darkness, as the beacon, to send help to a dying world. The Light, The Substance and the Society commingled to remove darkness.

Sufficient and Farewell,

EMPTY THRONES

March 5th 03

Greetings:

From the beginning God was protected or kept from man and for many had His dwelling in some far off heaven. God was always the power supreme and ruled man and the world with a rod of iron. Fear of the unknown then became one of the attributes of the God. It is right that we discuss the Thrones of God and this is the topic for this discussion.

So powerful was this God that to look at his face brought immediate death. And it was said, “let us be with him and on his side lest we be stricken by the rod of iron”. And fear now became a guardian. God was always to be sought by prayer, and ritual was what was taught to mortals in most places

on the earth. To strive to attain the presence of God is what man has been taught. And it was so, and rightfully so, for the times past.

The mature Human is in no need of an invisible God now. The hidden thrones are gone because of the freedom emanating to those seeking knowledge. The thrones that were the residences of the Gods were made so that it was impossible to gain entry except for a few chosen through time. Thus the throne of God was walled by mystery and blocked by walls of fear. The passage always blocked by man-made unrighteous conditions placed with mortals.

There were conditions made to bypass the walls of secrecy and to plead your case before the almighty. By the Son of God we were told was the key. By the High priest within the Temple you were able to penetrate the veil after a suitable burnt offering or suitable amount of gold. But always a price to pay of money or humiliation was the normal in day's gone by.

Other roads to the Throne were the Oracle, the Prophet, the Magician and many more. But all had the same admission that we were unworthy and below the realm of God. None could gain access without paying the price and it was so. The clever cunning of the man at his low ebb has remained to this day and we can buy our place at the throne.

To lower yourself humbly was the way to God and is still taught today. To suffer in the world today and be rewarded in the hereafter is the norm. Give of your substance at the alter of God and the rewards are many. Man was ignorant and the condition caused the rape of humanity. Common through the dominions of man were the devices of this nature. Take advantage of those that are in ignorance was the way in all aspects of the lives of mortals.

The position of the educated, as the higher and more revered, has been held over the heads of man. The condition has found its way throughout the whole dominion of man. To encase man in ignorance was the labor of the wealthy. To benefit the educated, and the powerful, was the basis of a

society of man that is now close to extinction. It has eaten through the hearts, as a virus does, and will destroy the whole if not rebuked.

The veil now has been opened and the space beyond is with many avenues. The streets of belief now beckon to the traveling spirit. To entice them into their places of containment is their want, so the loneliness of their belief can be shared with others. The kingdoms of God, in rows and streets, dress the heavens as stores fill the shopping areas of your town. Each is promoting the beliefs of the past. These are uncountable and roam throughout the countryside like villages' towns' and cities. Fenced by the walls they have made dare not letting anyone escape from locked belief.

Many have ventured forth as the emptiness of their heavens is creating the boring and monotone echoes of the old scriptures. Leaving the walls behind many have found avenues of higher thought beckoning them to greater realms.

The thrones, and the heavens, now echo out emptiness as many followers, save a few, have found they are not bound by the doctrine but really free to go. Some sit wondering why they are lonely, and unsure of their freedom, as thinking has been done for them throughout their lives. They know not that they are free and only the loneliness of time and empty verses will create thought to flee the bondage.

Newer Religions find more activity and have lowered the walls somewhat to mingle within certain groups gathering strength from fellowship and not from dogma. The main religions are encased in turmoil within the hierarchy and struggling with one another to gain souls. Much needed as the multitudes are dwindling rapidly. The verses have become sour and the obligations now are at the day of reckoning. To prove their worth now by truth becomes impossible as truth has been devoured by the cunning of the leaders. The flocks are becoming edgy and rebellion is at the door.

From behind closed doors the laws are made to profit the cunning but the laws become impotent with age. Like a medicine that is too old and not able to function as a healing is what the old religions are like. Worthless they are

for today but suitable for the past is the chain that brings their own destruction. It has lost the growth by restricting by laws.

Lonely heavens with empty thrones, and only inhabited by the few lost souls of belief not yet knowing that freedom has arrived. Wandering the streets of their early attitudes of emptiness, as lost and hurting souls, seeking the comfort of those newly dead by persuasion. The expression of disappointments to be seen on many faces graces the streets. The glitter of Heaven now subdued by the truth of empty chambers and unfulfilled happiness. The roots being deep within the structures of earthly Religions continually binding the above with words from below.

The scripture once cleaved unto as life force now void with age and of no meaning but the fulfillment of empty promises befitting the righteous from life on earth. "What has happened? We are less in comfort now than when we were mortals" is heard in their thoughts. "We have not found the promised heaven but only a continuation of the earthly rituals and service of hope. We are still unfulfilled?"

We are encompassed by the walls of belief that assured us of everlasting comfort at the throne of God, but now God has forsaken that pious place because ruling spirit requires the knowledge from the Spirit realms but our roots are planted so deeply in the earth that truth of Spirit is restricted. This condition arrived with welcome arms for mortals. The message was implanted in their minds from the pulpits of churches and places of worship for many years. The message of salvation with heavenly rewards has been preached for years through out the religions and beliefs of mortals. The promise of rewards greater by the amount of money given to the carriers of the message of salvation will lead only to the complete destruction of their religions.

Mortal now the complete man, in fullness of design, has established reason again. This is because the test of time has proven that which was good for the past is lacking today. Reason has found mortals struggling with inappropriate instructions like the tools of the ancients being used for the construction of the modern society. Set our thrones on earth as communities

of love filled with mortals that have found freedom. Build these Societies from where we now reside on the earth and nourish the roots with newfound wisdom so that it may flourish beyond the physical into the deep realms of soul and spirit.

We are equipped now with the tools to build this Kingdom. The tools of respect, love, care and understanding, with helping hands, trained to comfort the souls locked into beliefs is our labor. With new strength of found freedom the roadways now cleared for the growth of the new Mortal, the complete person. Move forward with caution of not imposing our beliefs but understanding those that have found empty thrones.

Blessings and sufficient are the words.

TRANCE SESSION

Greetings to you. May we be of some help to you and perhaps we can answer some questions regarding the workings of the Society. The Elders selected for you and it is a higher grade we are attaining by being helpful to mortals.

Thank you.

Yes. we do have some questions for you from other members.
May I ask them now?

Yes you may ask them now.

One of the members says they are a little confused as what to do. In an earlier trance session you said that the OAHSP book would be available in

many languages but in the last session it was implied that we should distance ourselves from the OAH SPE. Can you clarify that?

The OAH SPE will, of course, be written in several languages and it will be placed before many different people and several countries will now have the OAH SPE and its contents available. It is so that we do not use or make this OAH SPE book or bible to contain us into a religion. About the condition of the Forward in the bible, it would be perhaps a forewarning that the Elders bring to you that we here have been encased with some of the trappings of books such as the OAH SPE, and it is so much easier for you to distance yourselves from the OAH SPE as a religion while you are mortal than it is while you are a spirit. But, I bring wonderful news about the conditions of the heavens in that there are avenues now opening in each one and people are gradually finding their way out to what you would say are the well lit areas or the higher light. The document of the OAH SPE Forward is not to be used as a device that would restrict freedom from people in what they choose to read. We ask that you distance yourselves from the OAH SPE and the religions of it. It is for man to seek and find for himself anything that he reads and to justify for himself the justice of it between its covers. Does this help?

Yes. It is also, I am asking, that if we put the change in the OAH SPE Forward that it will really releases us also from bringing people into the OAH SPE and taking it as a religion. Is that right?

Yes. That would be a yes to that. It is not our purpose as the founders of the Society that we attach any bindings to anything. It is to be an attraction

to people who found that their ties to religion now are breaking and we can offer them an area of understanding as we have been there and the Society members have also been in the areas of hurt of the religions.

Yes, thank you. Another member asks How big is the OAHSPE heaven and how many angels are there.

A. The size of the OAHSPE heavens and the number of angel beings, it will be answered...the information on the OAHSPE heavens is a narrow, long, system of dwellings. It is hard for us to put a size on it, but it would be several small towns and dozens of small communities interlinking but in a narrow strip such as along the river, the river bed or the streets along the river, but there have been many who have left and are moving onward, and are being greeted, and farewelled at the doors of the OAHSPE heaven. It is a releasing now of many of the members and they are now finding that they can now go on to the avenues of light. They have been released, happily, from the bindings of the OAHSPE heavens which is also running parallel with many other of the heavens; and people are, like a migration, an exodus, now you would see, but the number of the peoples in the dwellings I am not able to determine but they were in the thousands of them---I would say, would be the number of them. I would say several communities of them, several sets of them, branching off in several directions in other areas. It is a good feeling of relief and the numbers are dwindling.----Let him (Wayne) rest. He is drying out.

Q. O.K. I will ask and you may answer when he is ready. Another member asks for the ones who are believers of the one Creator Of All are they called Zarathustrians, Faithists or is there another name of them or is there no name?

A. The followers of the One All Light, Jehovah, the Creator, the Great Spirit, are all of the same people and they are called the Seekers of Truth and have been called this many times, in many years, they were the Seekers of the Truth and Light and the Society is something that is refraining from having the name of a God, or of one that we follow, as there is a tendency to put it as another being that we are following. So our advice to the Society

would be to rejoice in the love and fellowship of all those in the Society but to honour, or adore, or worship not anything except the love of one another to the benefit to mankind.

Thank you. You also answered another question that was posed. For those that wish to join and also desire a symbol or a name and you really just answered that we are all Seekers of the Truth. Is that right?

A. Symbols are not necessary but for those that wish a symbol that is entirely up to them and it is between their inner-most thoughts of their inner light that they have this, but it is not for the Society to adopt a symbol other than the rejoicing and living within the love and fellowship of the Society. There is not necessarily a symbol to do with it or a label that would classify the members of the Society as any particular sect and especially not a religion or of any group other than it is a new Society.

Q. In the OAHSPE there is a Book of Divinity, is it the same today as it was when it was written? This, of course is for someone who still believes and follows the OAHSPE, I think, maybe not.

A. I will try to find out, okay? The Book of Divinity has had changes but not as to the meaning of the Book of Divinity, but at each printing the designs of the publishers have found their way into many of the books of the OAHSPE and there were other commentaries and forwards that were previously put in that have now have been taken out. The Book of Divinity is essentially the same except that in previous printings there have been additions to it, but it is not clear, so don't base anything on what has been said, as it is not clear.

Q. This is a question of my own (Margie). What specifically is the meaning of the sign of the triangle that you use when closing off? (Note: What this refers to is that just before coming out of the trance, while lying on his back, Wayne raises both hands above his chest with the thumbs and fingers placed so that they form a triangle---Dan)

A. The sign of the triangle is that we are connected as a group to the Elders---the Spirit, the Mortals and the Society, and you may have noticed on leaving that it is as our greeting, or our handshake to you. It is not necessarily a sign, or an amulet, or slogan but it is our greeting to each other during our sessions. It is not to be made into a label or anything.

I must go now as he is drying out too fast. Farewell from all of us to all the members of the Society.

Farewell.

TRANCE APRIL 19 / 03

Greetings:

We have reached out to the beacon transmitted (visible) to us by the formation of our new group. The roadways of heaven are congested with travelers going to their respective places of worship for EASTER. It is the Christian plan working to its mightiest as the time is shortened for the dominion and the control of the masses by Religions. The PASSOVER as well as many more religious organizations are still using the equinox as a day of worship.

We will try to answer questions if we can which are within the agenda allowed. But first we deliver unto you a message that may bring release to your minds and install comfort. The message is about one of the bibles called the Oahspe. One of these has reached the people that were intended to be of help towards understanding of the conditions of the Heavens.

During the writing of this book there were two conditions that happened. One condition was interference from the minds of those involved. The other condition was that the Angels themselves were determined to use this as a power. This happened only after about half of the writing was done. Then there was a book added to this writing that was written by the receivers and added into the Oahspe. This started the struggle of power and ownership that remains to this day. There were changes made and several books removed and destroyed. Struggles between the Angels were quite common during the writing and the writers finally changed. Many of the inserts were copied from rare religious manuscripts. They changed the contents of the book several times during the printings.

There is a complete Oahspe that will soon be revealed to mortals but strangely not to the followers of the Oahspe, as it seems now. The time for this book is not in the time of people on the earth. Our times are like seasons and not in days and hours. The book was necessary, even as it is printed today, to be a book that can guide a mind to seek truth. Because the all encompassing plan has inspired organizations around this book, even as religions, it serves little use within our group as our direction is opposite and is one of growth. (We will rest him as he is drying) Pause.....

To summaries: The Oahspe has a purpose, and brings many special spiritual manifestations, and becomes a challenge for many, and a way of life, it is part of the all-encompassing plan but not in the interests of the new group.

Bob Question:

What are some good points or principles to keep in mind when one is looking to help create or join a spiritual community?

Answer:

Keep in mind the separation from Religion and if it is really separated. Spiritual gratification is a personal journey and spiritual organizations are subject to the dogma of Religion. Seek to develop your understanding of the needs of people soon to be let loose from their Religions. To know Religion and Spirituality were for you to know, and now can be used as examples. The needs of people will be to find material to fill the emptiness that leaving Religion had done. You, and many of the founders of your group have written pages of material to comfort the mind of those now seeking truth from without the church or Religion. Please make this material a sharing action and keep writing as the Elders and Others guide you all from ON HIGH.

Bob Question:

How can Faithists and Oahspeans work more often successfully together?

Answer:

The reason seems that the priorities are in defence and have put their God as foremost, even before the needs of other brothers and sisters. This action was common from the beginning. That to defend their God or belief will justify the killing of brothers and sisters. They have placed their god above our brothers and sisters, not knowing that it is God from within that is the all- encompassing God.

This is not an easy action to change, as years of training in worship must slowly be removed. Soon you will see the interaction of all mortal beings for the common good, even as the animals of the forest all clear roads to travel from the grip of the forest fire. Those under the law, such as animals, are not able to discern right from wrong, therefore it is survival at all cost, even to killing, there is no wrong under the law. Mortals only have the freedom to know what is right from wrong. If mortals place themselves under the Law then there is no discernment to follow that which is good. They have become as animals and not subject to correction. Only a stronger force than their God will allow freedom to return to these individuals. It becomes a matter of placing the sought after principles before the individual or person. Their

Religion, now being the highest truth, will be defended and if it means to kill many---it is justified, as it is the word of their God.

The woman or man that is inspired to choose freedom has no right to bring misfortune to anyone. They know that the actions done, both giving of love or hurting someone and knowing it, are to be accounted for, as this is the teaching of freedom. The inspiration has come from that voice from within, and graciously accepting it, and developing ways to promote the Love that man was intended for, accompanied by gentle consideration of the doings and the beliefs of others, and knowing that feeling because you have treaded that road.

Dan---Question:

Are there any suggestions as to how we might make the Society of the one All Light Internet site more appealing to others?

Answer:

Recalling the wishes of several of you some two years ago there were seeds planted, and hoped for, the growth of a group that would be an asset to the development of our society as a whole. When seeds are planted in this 'PLACID' Garden, roots start first, but soon the tree follows. When freedom with love abounds the tree with branches and leaves, and eventually new seeds, will very soon spread to other places. If growth is restricted by dogma, doctrine or creed the roots keep growing and become so entangled to the earth that the full tree is never to grow.

Awareness of what people are, and capable of, is of greater help than Religion or Spirituality to attract them. To meet regularly for the exchange of ideas and personal bonding tends to attract those from old beliefs.

Have the library doors open to all those that find your new group so that they can enter and find the beautiful written words of the members of this group. This is your ACTIVE Garden where thoughts manifest

and are fed with love. Extend your hands to welcome those that need and want change in their life. Your new site now becomes your living prayer, answered from us as Elders. You now are the chosen symbols of light.

Farewell to all of you and we thank you also as it is for our benefit as well as for you

THE HISTORY OF OUR ELDERS

BRINGING A MESSAGE FOR GROWTH

Greetings:

The relationship with Mortals, from the beginning of the heavens on the earth to the farewell at the second level, has been an adventure of twenty years for both Mortal and Angel. The workings of the Heavens, with the mortals now in the craving stage of fulfillment, will now be explained through Wayne. We are honoured and pleased with the blending of prayer both Active and Placid that has given birth to the Elders.

Many years ago there were some of us that came to give enlightenment to Wayne and his wife, Margie, friend and companion for a lifetime. Prayers are never lost but some of them make far off pathways to find listening ears. Our elder brothers and sisters heard the plea and commissioned that a group to be formed. It was first called the 'Seekers.' It is by groups that we communicate and usually in numbers in the hundreds. The reasons being that there is a greater amount of information from a group than an individual, and the communication can be done even if one or more entities change. We are of one voice that will be using the structure of Wayne's voice and body to bring information to those that ask.

Channelling from one entity is no longer used as this promotes too close a kinship with spirit and mortal, which always leads to control of one over the other. For the benefit of spirit and mortal do we unite, creating a bond of trust, which requires responsibility. The use of this ability for personal gain will result in the line to close, and perhaps to be taken over by some undesirable earthbound spirit know-it-all. The protection of the circle for this reason prevents you from winning the lottery. Thus a poor mortal is a reliable one, but with a million dollars in their pocket not likely to be at the next session.

From the early beginnings both Margie and Wayne were seeking truth and were church going people. This did not satisfy their appetite for desiring a true closeness to God. Their cries were frequent and in a daily pattern and from one god to another their prayers were heard. The prayers were heard also by us your elder brother and sisters. The pleading and sincerity was recorded and knowing that the time was getting close for the massive rotation, in the leadership of the heavens and the earth.

Some connection was made from beings as mirrored mortals and family oriented. Several physical manifestations had occurred, which were leading Wayne into realms of inquiry that were not proper for him. As Wayne is an "Open" Channel, or route, entities can use and influence their behaviour. It happened one evening while attempting to contact "UFO's," that a new entity named Gabriel entered, and spoke through Wayne, giving so much accurate information that they were under the spell of this being called Gabriel. This carried on for about a year or so and Gabriel was the main name. However there were many questions that were lacking in truthful response.

Many times there were gatherings on the weekends and Wayne would receive a contact, and some very great healing messages were given during these sessions. What was happening was that the questions and the answers were starting to become related to the earthly and physical with little time devoted to higher communication. This was addressed within the Elders and the consensus was that it was necessary for this to happen as it will be good, sound reasoning that the doors of heaven are open to those that are seeking.

Because of the messages that are received in this group a decision was made to eliminate the one on one contact and become known as a group. The group was called the ‘Seekers’ at that time. It is time to make known the importance of a group. We, as the Elders, receive information much like your group the Society. We get messages that come to us that must be taken to the earth. We work as a group and submit that which Wayne can channel. This is a gradual process and takes time and training on both parts.

Having the knowledge that the earth was becoming very ill, there were some chosen, from years ago, that would be able to carry sufficient information to mortals to make many changes. These changes are indeed necessary as the human system of development is at a crisis situation and in need of change. Mortals now need to change direction or go into extinction, along with all living on the planet.

Both Margie and Wayne have devoted their lives to helping out people in need. They have visited the elderly and have raised foster children. During all their lives they put the needs of others before their own. This is the cleansing that is necessary for information to be handed down. It is the way, at this time that Mortal and Angel will delve into the affairs of the earth and find the solution for cleaning the earth. Always the remedy is within the illness, and Margie and Wayne will be known as the couple that opened heavens. They are real people, helping out the humans from addictions and depression. Have employed them in time of need and gave counselling to many seeking relief. They are as clean as can be for the level of communication at hand.

Both have had visits from those departed many times and belief is impregnated in their minds. It was decided that something stronger than the Elders was needed, so our requests were heard and the help was given. It was what happened during our first sessions with Wayne Channelling us. The friends that were using Wayne were causing stagnation in spiritual growth, as they were interested in contacting UFO’s.

It was April, and just before Easter some ten years ago that his friend and only close buddy died. Wayne was visibly shaken up over this for

several days. His friend's wife gave Wayne all his books including a green copy of the Oahspe, which sat for several months on Wayne's bookshelf. This was a necessary event for the development of communication from a higher level of spirit.

There was no communication through Wayne for several months after the death of his friend. A joint venture between the Elders for Wayne and two Director Angels from our sources was started. He needs some motivation as he is in a state of disbelief of the contact that has been established. In the fall there was given to Wayne and Margie an experience that would reinstate belief. This was an out of body experience, 'OBE'.

Knowing that Wayne has had a heart condition was the foremost consideration for the director angels and no manifestations were to be allowed. He was taken with the spirit of Margie and travelled through the tunnel, "bridge," or pathway for mortals to the spirit realm. There he was shown the method of travel that spirits use. He was shown the heavenly chambers of the hall of fame for mortals, where each and every mortal is shown in brilliant gold that we are all children of God. The directors were so much like new friends of trust for Wayne that to this day the journey through the heavens is still fresh in his memory. A visit to Hell was on the agenda and several hours of looking through the rooms of people, now in spirit, that were trapped in rooms of belief. They knew not that freedom was just as close as the door. As far as they could see were rooms and walls of people locked into beliefs that forbade them to leave these rooms. A close up look at several of them, even some of his teachers while on earth level, disclosed the torment that their beliefs had imprisoned them. They were not in hell fire and were not being hurt in any way except that their beliefs on earth now were their beliefs in Heaven. This is where the directors answered Wayne's question, "How long will these people be in these rooms?" The director Angels both said together that they were free to leave and walk into the light as soon as they wish, but must not take the beliefs with them.

Wayne's condition was monitored continually to make sure no harm came to him. The next tour was to the centre of the universe. It is here where Wayne learned about the voice of God. We were told to hang on

and the arms of the Angels embraced us each. In an instant they were floating in the satin darkness of the massive void. It was shimmering with such beautiful planets and moons all magnificently producing their own light.

Then it all became silent and the angels said, "Wayne this is the main purpose of this encounter is what is happening at this time." Suddenly there was the Voice Calling Wayne, "Wayne listen to me. When you are in doubt about anything the voice of God is always there for you to hear. You will always recognize my voice because my voice will be the one that starts out as a small voice but then gets louder and louder so there will be no question of what you should do." Then the voice amplified so much that it echoed off all the millions of beautiful worlds that we were in the midst of.

Because you have always been searching and asking for more knowledge and light you have been chosen by us to bring many messages to your world. Now you have my voice and in your possession you have a green book "OAH SPE." This will be for you to follow as part of the necessary knowledge is within the covers. You will be guided in your path and will be in contact with many Angels both day and night. As you are ready for more knowledge it will be given to you so you will always know that God has no boundaries. Then the angels said that the body is in need and the spirit returned.

Now Wayne read and studied the Oahspe and became a follower of the ideals within the book. After a few years the voice told Wayne that he was becoming addicted to this book as everything now was proven with the book. This is only the beginning of his spiritual path and light was given to him and the Oahspe is no more the source of all knowledge. He uses it for reference and not anything else. The truth will entice Wayne and many people to travel on some paths not mainstream.

This has been a brief history of the Elders describing the main purposes of the communion of Angel and Mortal at this time and for the purpose of the Society.

Farewell, and blessings of truth and light will guide all.

EXPRESSIONS OF SOCIETY

Greetings:

It is in our common interests now to develop the method of how the society expresses itself to people. This purpose will be our discussion for this session.

Those first impressions that have led us to different levels of learning were what satisfied the appetite of the mind. It is for our benefit now to explore just what kind of mind we wish to attract to our society. We, as your elders, can only guide you in your efforts, but it is the work of the members of this Society to decide on matters of the Front page and of the greeting of the people of the world. Therefore may we suggest that the needs of a page for the Internet system of communication is more in line with the members of the group and is within their capacity to prepare this page.

The design of the page can be of great significance for the development of the Society but due to the limitations of Wayne we can only give suggestions for what is written on the opening page but not colors, pictures or quotations. The opening of the doorway should be preceded by subject matters that will be short, potent and change from time to time. As an example, "Where is your God? Enter and find out." Another example is "living with the Creator, enter and see how." These are two examples and must be backed by suitable material from behind the door of the Society.

At this time, on the earth, people have become stunned, and without guidance and in the trust of leaders that are misleading, tragically, the people of the world. Let this Society be the place where true thought and comfort comes. Let it be attractive for those that seek truth that

they may come and be filled. Like the core of the product, the Society will grow; from these now present roots, to become the complete organic enclosure of life. The awareness of the One All Light now is made possible from the writing and knowledge flowing freely from the pen of the members. It will grow and mingle with all that is growth so that never again will there be a restricting of truth. With freedom, no walls or protective barriers of belief will stand to the test of time and truth.

It is time now for practicing what is preached by this wonderful SOCIETY, so be cautious of what is written for it lasts forever. Become a gentle people of understanding, with compassion and comfort, to those seeking relief. Build on what is proven to the members to be of worth, as this is the beginning of societies. Grant unto all seekers choice and freedom, then true economy of living will be found within the presence of the creator. Love will increase within the membership in the proportion that understanding is given out. Let us express ourselves from all members as we have much to share.

Plant that which is right within your placid garden so that others may be comforted and filled. Replenish daily these seeds and daily someone will be rewarded. When one person is filled, the society becomes replenished. Seek from each other and be satisfied from the Creator. Learn to see with others eyes and the picture of the landscape will change. To make an atheist smile is better than a crown of thorns or a virgin. (Religion?)

Are we in unison of thought without the abuse of freedom? Are we jointly committed to easing our strict adherence to old pattern of control? Are we ready to accept new members within the Society and give liberally of our understanding? We are at the first few steps of the greatest journey in the whole world, a journey that will change the course of this world by getting our brothers and sisters, angel and mortal back on track. To regain the original plan befitting Gods on their Journey and to establish that which was cleverly put aside in days of old. Are we able to let live and continue onward with surety and let go

of that which is old? Are we ready now to walk in the light that was preached but never attained?

We have been appointed and sent as our wish has been granted, so we as your elders may rise to the places predestined from our mortal births. We can walk, hand in hand, together into the light of the One All and find that we have never left this light but only saw it different without freedom. To gain the understanding of the One All Light and the manifestations made clear to us both angel and mortal of the being and presence of the One All Light is our work and reward.

It is right at this time to write out those words explaining the presence and the attaining of the One All Light. It will become a wonderful story of unending knowledge as each has a different story and the knowledge is perceived and transmitted differently for each person. Don't be shy with your words because they are valuable and needed greatly in this great time of change. Make your writings your own very inside thoughts and available to all without being tarnished with scriptures of old. Today is the day that both Angel and Mortal have been waiting for. We are the parents of the Society that will rid the world of laws that hinder and twist words to produce wealth to the rich and misery to the needy.

The Society, now a newborn being, will encompass all within and without, removing the boundaries that have kept love from being enjoyed for centuries. Seeking out truth and freedom will be jointly accomplished together not as a labor but as a privilege to be of service to the One All light. The explorations of the heavenly spheres will now be open to each other by the help of our sisters, brothers and guiding Elders. To see the Heavens with all the yet uncreated beauty will now be available for those seeking.

Providing a pathway for those leaving their old beliefs will now be a pleasure for all involved. To give to those same people the same power that we found available that guided us to this Society will be our reward and pleasure. The hand of our mother the earth will, in near

future, turn the children to be a respecter of the earth. While we live within the atmosphere of the earth, actions and thoughts combined will either destroy this planet or nurture this planet, our providing mother. The earth, our foothold to the heavens within its organisms is the path of all worlds and the planets of the universe that we may seek out its mysteries may be of the greatest prayer.

Walk quietly with each other and hear the voice from within. The voice that is within everything from the smallest to the greatest is where wisdom has been implanted. Hear the voice of the planet and be you aware of the needs of the mother as she is becoming a sick being and in need of help. The Society now foretells the way of travel for mortals on earth and angels as children in the arms of a caring mother, the Earth. Hasten now to free the love from within these fellowships. Be quick to see the beauty within every entity then that which seems cloudy will be illuminated.

Farewell,

THE CONDITION OF HELL

March 7th 03

Greetings

It is worthwhile to discuss the condition of Hell. There are many hells that exist but mostly in the minds of mortals. I am sorry to say that that great burning pot story has become outdated and of little use to that which is indestructible. In times past fear created by the fires of hell, was used to conform mortals to respect the Gods of their Religions.

It was repentance by fear that gained the control of the spirit when mortal or free. To be a soldier of the great and true religion was preached from the towers of the entire prominent world Religions. It was only the very Elect that escaped the fires of hell that doctrine told

us. Be not under the influence of that which is not truth in full. Of the hells certified, there are indeed those places that can torment you, to the greatest ends for those in spirit. Satisfy your curiosity of these places, by accepting the fact that under the influence of the power of Religion, all these hells exist. To patronize these places is the want of the inventor, so remember that Hell is where we reside when the ability to think clearly is replaced by doctrine.

To impose a sentence of Hell on the spirit of a mortal is but wishful thinking and can not happen except by the wishes of the maker of Hell. Because mortals have been given freedom, the afterlife will also be filled with freedom. To have Hell in any way is in violation of the Freedoms that Mortals have been given. One should consider that that place of one's spirit, for a short time, is necessary for full consolation of the life as spirit. From the eyes of other spirits these domains have been shown to mortals. All the domains of hell are only for duration of what is imposed upon the spirit. When in living a lifetime as a mortal these dwellings may be built for the acceptance of the information that is available to spirit but not to mortals.

To burden people with the yoke of Hell, and let man also have freedom, is contrary to any Divine principle. The hells advertised for those finding a different way of belief, or creed are but traps of an immature mind, be it the mind of a mortal or the purpose of a religion. There is no doubt about the habitation of spirit for those still clinging to beliefs of old. They will inhabit the very hells they made while living life as a mortal.

As all humanity now is yoked to beliefs of a hereafter of eternal torment. Only a few that tread the paths of truth will see the fallacy of the old beliefs. It is not the purpose to expose the weakness of the scripture but to give an encouraging smile to those that dare step out of bondage.

Those that so journey to truths relevant to today are building well their residence in the afterlife. To seek out the freedom that was intended to abound for mortals will require that one doesn't keep forever the ties to that which will surely create the Hells of the thoughts of others.

You have been directed to the highest light now available to mortals. It is the light known from the very beginning of the human trail on the planet. It is that light which shines from within, and the voice to listen, which is sufficient for that which created you. This said; find the strength necessary to dissolve all old beliefs and rituals before they become the torment advertised. You will not have to look very far to find ones unsatisfied with the ways of old. It will be a little more difficult to persuade by attraction, as the way of growth has to be cleared of scripture and old biases.

VICTORIA DAY SESSION

The following two paragraphs are comprised of information that was given to me in a dream. The dream woke me up and I had to get out of bed and write it down. (It seemed like it was a different entity than the usual ones.)

“There will be provided at this time a cleanser of growth, much like the needle bearing trees only smaller. In numbers they will multiply so much that they will be thought of as a parasite because they will attach themselves to anything they can. These will be just like what is called air ferns and have the properties to remove chemicals and impure gasses from the air of the earth. When filled with impurities they will fall to the ground and have much the same effect with the soil and the surface.

As a mother asks for help for her own children, the Earth will ask and be provided with the necessities for cleaning. Seeing and understanding that the earth is our only divine object that mortals can relate to, is one of the main reasons for developing a relationship to the Earth, as a child has to its mother. Soon there will be some upheavals for the benefit of all humans to see this natural force as the hand of God, and many will change their ways and many will respect the earth as a mother.” (End of dream.)

Greetings to you both here and spirits attending.

May we transmit to you the information available to us that will be helpful with joint endeavors. The intensifying of love in your thoughts and words is opening your understanding. The direction of your course will start to be more refined and some organization of your purpose is needed soon.

When mortals realize that they are the inhabitants, and as an assembly of children, they are manifest as the complete child. We, both

spirit and mortal, are the children that are to reside here on this planet. Our mother, the Earth, has had children before, in ages gone by. We are the present children of the Earth struggling to become mature and walk proudly on the earth. As a rebellious child needs correction, so the Earth will first defend her and the immune system that all living was given, will counteract the actions of an unruly child.

For many as the children were in accordance with the life of the mother the mother was indeed satisfied and provided the earthly nurturing and in great abundance. As the child grew, and became one of large towns, and governments were formed, the appearance of greed seemed to follow along and grew. Mother Earth still provided, and provided well, for many years. Mother, then being young, was able to cope with the constant needs of the greed's and desires of mortals.

The way of respect and replenishing became less with the growing up of this child, the mortal. Mother was saddened and reacted in her way to let mortals know that she was hurting, and deserts were upon the mother because of being striped of the trees and shelter. Soon the sign of depletion was made known through many shifts to ease that which was hurting.

To entertain thoughts of a mother and child will in some way help you to understand the vastness of the world. To see and understand the proclamation of mortals that has shown, in essence, that the growth of the child, that is the whole child, is in need of attention. Correction and discipline now will be imposed, as the mother always loves the child.

To these ends the child will learn that respect to the mother is a requirement for love. It is the love of a mother and child that will be the school of learning for the next several years. If it is considered that all of the mortals are but one person going through life, then understanding

will come. We as your Elders on this earth plane are subject to the same principle as mortals, therefore we accomplish well by acting in groups.

END.

QUESTIONS

Greetings to all that may see these words in writing. We will, if you wish, answer questions with the information available.

Pat asked; Are the elders aware, and would they like to comment, on any impending major change in human consciousness or dimensional shift?

ANSWER:

If you are asking for us to prophesy upcoming events about the physical changes to earth, then we are not able to give this anymore than you can. A prophecy is usually just a law of probability that may or may not happen. If you are asking about the shift of mortal thinking and reasoning, we answer yes to this. In recent times a conscious upheaval has led the elevated Heavens to organize groups, like we the Elders, to act in unison of love to communicate to mortals. Thoughts and actions now are in a trend of refinement to the frequency (vibration) of love, the highest order of thought.

We are working in many lands and provinces to establish groups of love and light. We wish to work through this Society to attract many other individuals, and groups, to a more organized program. This is a time consuming task as we admonish freedom of thought but organization is the truth of divine growth.

The strength of love will allow us to know that the planet earth will not be destroyed as long as there are people to administer love, compassion and happiness in their ways of choice. Though there may be upheavals, as an angry mother will correct her child, the love abounds enough to provide a complete person and the children of the earth will be of one accord. At that point of time the elevation of mortal as physical and spirit will travel along the path of the Heavens. It is at this point in the evolution of the complete person that we can understand the condition of the earth at the present.....Rest

QUESTION

Susan

Why should the colour turquoise be meditated on when asking for spiritual guidance form the Elders?

Answer:

Pause.

The colour turquoise, and also the mineral or gemstone, gives a focal point. Concentration is then able to free our minds from any outside influence. At that time the connection is made and some of the Elders can inspire a person and help uplift their thoughts. Turquoise has the ability to achieve a meditation and is similar to the colours of the sea mixed with the sky. There may be other stones or crystals that help out with meditations. Turquoise is associated with colour but most other crystals and minerals can be found in all colours or by heating can change colour. When a sincere meditation is in progress there are Elders that are in synchronicity with some colours therefore a connection is made. Blessings are to those that meditate, as this is the greatest prayer. REST

QUESTION

Art:

What about Hitler and Saddam Hussein will their time be longer and will they spend a lot of time in hells with a lot of torment for the terrible deeds that were done?

This certainly is a good question and has been asked many times. People such as the above mentioned have created these hostels for the dwelling in spirit and for protection from all the spirits that have been affected by the actions of these people. They are not just a few of these spirits; there are thousands of them. No one person turns to a human demon without the consent of many involved.

It is not the terrible deeds done by the man but the combined actions of many that condoned these acts of horror. (See footnote-Dan)

The heavens are filled with the hierarchy of the various Religions and in due course the spirits mentioned will console those that have suffered. It may seem that this would be such a long time and these spirits are being justly punished. However the ones that have done these deeds have been educated to the method of change of spirits residing with mortals. Now they know that this is the only way for attaining grade by submitting themselves to the ones that have suffered. In time a bond of love will be formed, and groups of the millions that have suffered needlessly, will feel this bond of love. These spirits limit themselves to the same condition till forgiveness is given.

These too are attaining grade by leaving revenge, and following in helping others that have suffered. To be within the rooms of spirits that no longer can die can be a very depressing environment. But they are not enclosed with each other till the necessary schooling is accomplished so that they know the nature of their deeds and how they can make atonement with the love which is stronger than the deed done while mortal. In due course of time many are finding freedom is just a matter of forgiving and believing that there are better ways to follow...pause

To inflict punishment on a person's spirit that was, in mortal form, the habitation of many undesirable and ignorant spirits is not the solution for the way of the One All Light. It is not the way of getting even, and promoting revenge, but is to see the reason for every action and learn to forgive, as this is the way of elevation. To learn the effects of our actions and the consequences, for both the offender and the victim, is the schooling of the heavens. The ministry of love to those so hurt, and abused by war, poverty and hunger is the labour of the spirit. This is the way of resurrections to learn and to forgive and love unconditionally.

The learning of the rules of Gods and Goddesses can only be amplified where direct experience has happened. It is the path for all and none can escape it. There has been no action made by man, or the assemblies of such that has not been for the maturing of the child; the whole complete mature child..pause

Question:

Dan asked:

First I would like to personally thank the Elders for their excellent and appreciated suggestions for improvements to the web site, the suggestions will be followed.

Second, a question, which doesn't bother me, but does some of the others, and an answer, might help alleviate their concerns because we get so many conflicting reports from others.

Is there any possible chance, in the near future, of any major physical changes or disasters for planet earth in order to wake up the people to change their lives?

Answer:

We, as your Elders, are not qualified to give answers with accuracy. We may, though, tell you that conditions on the earth, and the cycles, will be increasing somewhat in the next few years.

These cycles determine the stability of this planet and the events such as earthquakes, tidal waves and severe weather. Be assured that there will be no greater destruction of the human race and animals than what mortals in their greed have come to see and use as a necessity. From levels above, our access and your understanding of truths with actual facts remain as records have been made with reference.

The powerful earth gods are using the threat of such major catastrophes, as a method to gain control of the greatest number of people. It has always been part of the history of Religion and a tactic of fear. This is the opportunity that we are privileged to be part of. The actions of the Society, now growing so very well, with members now speaking and writing from their very innermost self will ignite paths of guidance and wisdom. It is without the way and the scripture of the old that we will overcome world disasters.

The Elders are grateful for the efforts of Dan and all the new members that will be entering the Society. It is the contributions of all, with their writings, that will open the new way and raise the levels of frequency and the refinement of thought over deed.

Respect our Mother, the Earth, with all we can by example and she will raise the children to the level required for this time.

The Elders thank each and every one of the Society for starting this line of communication, as it is for the benefit of all involved.

Blessed that you are.

Farewell the Elders

Footnote: This is interesting as I had a friend, much older, who served in Hitler's air force. He knew Hitler and said that Hitler was not as bad as history portrays him, as the terrible ones were actually his generals and those around him. This does not mean that I condone what Hitler did.

THE VORTEX WITHIN

Greetings from our space to yours.

Many areas of development now are on the horizon of the Society. It is time to expand some ideas now into realization. The seeds of growth are now growing and in a very rapid manner. Being on top of the society's plan for the growth planned is of primary importance. The numbers ever increasing now for manifold growth to many sections of the tree of the Society.

As mortals and Angels we admire the universe and the distance in which it goes. From the grass you stand on, to the bridge of Chin vat is where the end of perspective as mortals lay. It is beyond this great divide, in and bridging, from atmospherea to realms of spirit 'ENERGY' that we are deficient in the pattern of the past. It is at a turning place for your inquiry to probe the depths that are from within, as well as those beyond, into energy from the other perspective. Dwelling in one area for knowledge is of little value unless all areas are explored and by this we mean to turn to the inner self. As this has been but mere words to some, it is of utmost importance to the creative process that we have inherited and now are responsible for.

The vortex that is within is very seldom explored to any great depth. It is like a bridge into the realms of unexplored heavens. Through the exploration of the inner vortex the keys to the heavens emancipated are in grasp. Those that are familiar with the principle of vortex and the power it contains will now be able to see, from within, the manifestations of matter development to their fullest form. It is a matter of seeing, in the simplest terms, the way of creation and to complicate it with the power, and the mathematics, involved will hold no significant purpose. Thus in simplicity the method can be revealed better than in the scientific method.

The words “To seek from within” have been written, from the beginning, in all the creations apparent to mankind, in visible manifestation. Also through the written words of those that have sought for more knowledge in an undaunting manner will now be within our grasp. To continue with growth is to let the past be as example but not for truth as this can create dormancy of your being both spiritual and physical. But let the past wisdom be for knowledge and for nurturing the growth of the new. It is within the tree of the society that can inform us to the power that lay within the vortex within. To be builders, by thought, the most powerful of any matter and to be understood as we enter the realm within.

As with any circumstance there are two sides, therefore that which lies beyond Chin vat’s bridge can be explained by that which happen within the vortex within. The power of thought gathers like the galaxies of the heavens on a clear night to bring into being the material of thought. Gaining in density and in mass the thoughts of one bear fruit on the outer vortex because of the formation of a mature thought from within the inner vortex. It is the realm of detail in which thought matter, by attraction, manifests itself in the form of ideas born and into real objects emitted by forces and by the nature of organization.

Be aware of that placid garden of prayer and thought and that indeed it will carry forth over the inner Chin vat bridge into the vortex of inner matter. So what you think of today is already in full manifestation and, in due course, will inhabit your area, street,

community, town, or village. The reigns of direction remain within the vortex of the innermost being of self. You are the custodian of such a wonderful power that lies within your ability to create. It is you that can harness this force or better-termed power of light.

Consider that you are but a letter in a word and the word is but a particle of a sentence and the complete sentence becomes manifest as a phrase. This is the direction given to you today to harness the reigns of the inner vortex to master realities of the greatest and not to harbour anything less than this divine principle to enhance the people of the world. It is by our thoughts, and thoughts in unison, that we proceed through this edge of the new era, and proceeding as light bringers to darkness. To question every conceivable situation, institution and written word is the challenge. To dispense with the articles that have been used to undermine the divine within each person and each angel. Being foremost and always in our thoughts to bring truth within our midst. To cast away the principle, but not the persons, that wedges their once magnificent philosophies into the inner mindset and the vortex.

It is like a healing crisis that happens within an organism that can and will repair from within that which is of no more use. The disease is Religion and the encompassing theories that have blackened the earth by what is called doctrine. The injuries to the souls of mortals and angels now will be eased both from before and after the bridge. That healing to the planet, now much overdue, is on course again with truth being a light bringer to the world. It is within that we can seek for truth and from without see the display of false messages of blood.

Prove it, now being the master key to truth, is what we have created and in due time the rewards of truth will shine as light.

As these words now unfolding before you will need to be proven, as all works presented for personal guidance, should come under the scrutiny of the unbiased and uncluttered mind. Become more familiar as humans' being of a divine descent and not ever to be under the law as such happens within the animal, vegetable kingdom. Organic, and being disciplined like what was intended for the animals, at this time are not a positive attribute. To become engrossed with progress through the

animals law is acting in violation of basic rights and freedoms. Mortals shall not perform and answer to a bell as they were given freedom from their transplanted beginnings from divinity. To be as gods now has been hampered by the many words of man which, through the assemblies of Religion, have made man less than animal or vegetable. To unwind this thread of knots and tangles cannot be done with any perfection only with the powers bestowed to humans and angels from divine realms. We have reached the second turning place for Mortals now being within our grasp, responsibility and because of the inherited power. The provisions of the great mother the earth now is in need of a complete inventory of both product of man and of product of thought.

No longer is needed the destruction of the planet mother by the powers now in control as the plentiful now becomes the needed. The basics now are dependent upon the ability to live without plunder and to love without passion. To be of giving rather than to be of taking, the community will develop in small steps to large leaps as the illness now identified can be healed. The vortex now becomes another needed key for the development of the Race gifted from divinity. Be wise and be one of a questioning manner of that which is called law for the time of law is at an end, the use of such controlling forces has blackened the light of mortals to be less than an animal. Think and think it out thoroughly before your agreement binds you to more darkness.

Let the ties of “bound by scripture, rituals, rites, and ceremonies” be first loosened by truth of thought. The ceremonies made for animals are now in the place of decline as impotent for the new mortal and may your own thoughts manifest quickly upon the earth our mother. Be not afraid to let go because healing is of the society and no injury can become more than a small bruise which is the healing from within. Some have done this and the numbers continue to gather momentum. The light of the society now is a beacon to those somewhat lost in the snarl of belief systems.

Continue to be free with understanding powered by love and to be driven by innermost pure, free and total thought and the manifestations are within sight. As pioneers explore into the realms of divinity, which

was till this time forbidden for mortals and that has had its day and will flow back to darkness from which it came.

Take charge of your destiny and prove these words by planting thoughts in the vortex that works from within. The ability to create is in direct proportion to the amount of individual thought that enters into the vortex. Thoughts that are for growth of the society will attract like and similar thoughts from the ever-plentiful garden placid. There is no shortage of material if there is no shortage of determination. It is the storehouse of the gods and the mechanism used for the new direction that mortals now are choosing.

It is for our understanding that the vortex of inner most thought is but a doorway to the vastness of creation. This doorway is in our hands and the hands of mortals and angels. It is a key to freedom to be used wisely. May you find it now and prove that our light will overpower that which is “greed, power, wealth and self of the masters and leaders”. Many have used this same vast storehouse of power to manipulate the ignorant into a doctrine of deceit thereby holding mortals as hostage and in bondage for many, many years too long.

May you find the door and plant the seeds of thought. Be keepers of the divine power that is the inheritance of mortals and angels. Never underestimate the power of organized thoughts. Be wise in knowledge and distribute love freely. Think carefully and in our highest light create our thoughts for the betterment of the world.

Greetings from our space to yours.

THE VORTEX WITHIN

Greetings from our space to yours.

Many areas of development now are on the horizon of the Society. It is time to expand some ideas now into realization. The seeds of growth are now growing and in a very rapid manner. Being on top of the society's plan for the growth planed is of primary importance. The numbers ever increasing now for manifold growth to many sections of the tree of the Society.

As mortals and Angels we admire the universe and the distance in which it goes. From the grass you stand on, to the bridge of Chin vat is where the end of perspective as mortals lay. It is beyond this great divide, in and bridging, from atmospherea to realms of spirit 'ENERGY' that we are deficient in the patte rn of the past. It is at a turning place for your inquiry to probe the depths that are from within, as well as those beyond, into energy from the other perspective. Dwelling in one area for knowledge is of little value unless all areas are explored and by this we mean to turn to the inner self. As this has been but mere words to some, it is of utmost importance to the creative process that we have inherited and now are responsible for.

The vortex that is within is very seldom explored to any great depth. It is like a bridge into the realms of unexplored heavens. Through the exploration of the inner vortex the keys to the heavens emancipated are in grasp. Those that are familiar with the principle of vortex and the power it contains will now be able to see, from within, the manifestations of matter development to their fullest form. It is a matter of seeing, in the simplest terms, the way of creation and to complicate it with the power, and the mathematics, involved will hold no significant purpose. Thus in simplicity the method can be revealed better than in the scientific method.

The words "To seek from within" have been written, from the

beginning, in all the creations apparent to mankind, in visible manifestation. Also through the written words of those that have sought for more knowledge in an undaunting manner will now be within our grasp. To continue with growth is to let the past be as example but not for truth as this can create dormancy of your being both spiritual and physical. But let the past wisdom be for knowledge and for nurturing the growth of the new. It is within the tree of the society that can inform us to the power that lay within the vortex within. To be builders, by thought, the most powerful of any matter and to be understood as we enter the realm within.

As with any circumstance there are two sides, therefore that which lies beyond Chin vat's bridge can be explained by that which happen within the vortex within. The power of thought gathers like the galaxies of the heavens on a clear night to bring into being the material of thought. Gaining in density and in mass the thoughts of one bear fruit on the outer vortex because of the formation of a mature thought from within the inner vortex. It is the realm of detail in which thought matter, by attraction, manifests itself in the form of ideas born and into real objects emitted by forces and by the nature of organization.

THE BOOK IN HEAVEN

Greetings:

Your actions have brought us together and a bond is made both where you are and from the section of Heaven where records are kept. At this time as records have been entered both by word and picture (The Earth scene) there is some upcoming changes both to the Elders and Wayne. May we be not hasty to grasp for heavenly inspiration. This is being attended to through our choirs for communication to mortals. A suitable channel is being prepared for these upcoming changes. It is a detailed work both

for us as elders for guidance and for mortals that are bringers of light (Knowledge).

The generations of humans is entering into the time of the end. The end of Religion, law, and a society of multiple repeated laws and needless regulation is entered into. Humans have not been able to see clearly their own path, as the path of mortals is becoming a hard journey. Mortals now will revert to the divine line within all to find comfort from needless regulation.

That you be teachers of love and freedom is the heavenly request. Keep in mind that the society is not, or will not, become a religious body, this being foremost in any organization upcoming. To lean away from sectarian control always as the new is equal to the old.

Therefore equality tends to be the better way for growth and regulation kept to a minimum. The society is the key for understanding of the principles that are here to be acted upon for this new age. We must have some organization and record keeping for the benefit of all because of the present mortal system.

The Book of Heaven stores the history of the heavens as well as the earth. As Paradise has corruption so does earth at both human and sectarian levels. Do not be troubled with corruption as this is part of the master design. Corruption is the sign that the world is going through major change. As the corrupt dissipate into another substance so is the Society the new material for building of the new age.

The youth of today have rebelled within their groups and are telling in their only way that present conditions are not suitable anymore. The building material of the new age is within the younger generation; there is never a shortage of material. Thus the new growth for the new season becomes in fulfillment. The power of mind will open up to many as this is within the plan of the

designer. It is so then as part of the designer we should not in any way doubt the manifestations of growing society.

Within the Elders there are many doors to levels of understanding, and not that one is better than another but the difference is important. As one person will understand the science of motion, so another will use this for travel. Finding that truth for so long has been hidden it is now to be welcomed, and that we are keepers of many powers of mind. To prove that the ability to create is within your grasp I would suggest that a pre designed thought for the Societies' growth be nurtured placidly within the minds of the group. (Emphasis-Dan)

For this time of nurturing thought in the fertile-placid, garden soil a period of thirty days is all that is necessary. When roots have taken, the gardener then moves to another location in the garden and plants more seeds. The rate of growth is in direct proportion to the interest applied. The reasoning concerning negative thought is that it is such a potent device especially when used in a negative manner. With training the ability to accept only positive pictures with the scenes we paint in our mind. It is well to remember that thoughts with emotion attract like and similar thoughts. The power you hold is also as great as the emotion used for your request.

We have reached a situation where some matters concerning the Society may be difficult at this time for Wayne. Having sensed Wayne's thoughts it is time for him to be replenished. More than ever now his connection to the earth needs attention. Much of what has been said about the importance of not having rituals can be scrutinized at this time as symbols in spirit have the power of binding the thoughts of mortals. New days can be part of what the society is. Symbols that will be used for guidance of thought (prayer of freedom) will be within the realms of your spiritual residence. This is not possible at this time to transmit symbols as Wayne has had experience with many symbols and it would be wrong to portray to him the symbol of the Prayer of Freedom.

At this time ponder what you will and may it be of an accord of similarity for the pathway of the Society. As with all things physical, rest is needed and many items to be added to the new front page will be that which attracts without rule or obligation but with love and understanding. It is the time of the end for the regime of religion on this planet. It is a rest period for the people of the Earth and this Society. Most high blessings are extended to the society.

Farewell till the next session.

MESSAGE TO MAN

Greetings:

I am honoured and I am pleased to be asked to speak with the elders on this evening of yours. Please don't think that this is some kind of a miracle, as so many from the spirit realms have guided your families to bring together those couples that were made to be together. For many generations, in the past, the selected Angels knew you. Your time is the present and gathering together such a group has taken time and will take even more time yet.

You are at the right place in the roadway of the world, and many of you will pass through the barrier of life in the physical

into the spirit realm. We, and your friends and family members, will be there to greet you. This place that I am from is where we make unsuspecting mortals into Angels (Laughter). It is the most rewarding work for all involved, as the newborn spirit wanders in amazement. Sometimes wondering where they left the car. But caring hands of angels have prepared a proper seminar for the newly arrived spirit.

Well, soon they find that the vehicles we use are not manufactured in the city of Detroit on the earth plane. (Laughter) Vehicles are not really needed because spirit is invisible and invincible. It is just a matter of thinking about where you want to be. No newborn will travel unattended here, as this first while is, for some, a time of learning and accepting that they are the same person but just have less weight (Laughter). Now as this topic has many areas to explain we will just set straight some of the basics.

Dear brothers and sisters remember in a previous discourse about how the action of mortals within a group, such as the Society, does have a very powerful influence to the areas at this level. It is wise to never underestimate the power of thoughts that are for the betterment of humanity. When many, for the same purpose, use these thoughts and the picture is set, there is no stopping its fulfillment.

There is no secret to be handed down from the ancients that would be successful with the Society. Within each persons mind, and from their inner most self of the person, the answers are already here. You already have the building tools of a great Society that will be one of many. There is no need to give credit to the Elders group as we have only guided you to the resources, and the building material is plentiful.

We are at the threshold now of the Societies creation that is the very making of a place of understanding. The messages that

will be needed, in the future months, will enclose with it some of the new symbols. The methods of the past have been to create symbols of deities and their colleges of learning by ritual, ceremonies and worship. It is because of these past conditions that have leaned into the corrupt mind of control, and the very worship of symbols, wrought by man that has, at this time, caused the formation of this society. One Religion after the other, along with their subsidiaries, has been trying to come out as the one only true religion. Thus for sometime humans, save a few, have been slipping backward and evolving backwards. Those that have tried to set mortals back to the forward method of evolution, have been ridiculed, persecuted and dishonoured by the world and set up as heretics.

The roadway before the Society is ever widening and it is the path for many souls to walk hand in hand into the future. The upcoming organizing will prepare our group for welcoming many, to travel side by side, as an ever increasing tide of love, compassion and understanding.

At this time it is necessary to plan and to think about the direction ahead. While thoughts of growth are being nurtured, it is important to rest, both for us as Elders and for receiver (Wayne). Because of the risk of misinterpretation it is necessary to decide the next carrier whether it is Wayne or if others become open. The symbols for the spiritual power of prayer (thought) are new and for the mental and the thought mechanisms. Therefore it is not to be blended into the old rituals and ceremonies, which used symbols from the past.

To thank you is not enough but to be part of you in your affairs of the day is our quest. The opening up of new methods of growth lay before us as a body in spirit and working with mortals. It is common among the Elders to say, "If you think you can, then you can." We are willing and eager to communicate with all involved and to be graded for reception and the transmission of thought.

SHADE OF LOVE

Like the early evening mist
Creeps into the place of mind
It becomes a cover from the heat
Of the worlds searing woe's

Rest yourselves within it
And partake of its growth
Let the doubts go around us
And absorb the shade of love

To heal the worlds wounds
Is not the path we chose
To love with understanding
By the shade of love we made

As a balm for blistered minds
The shade of love is there
To cover up the scrapes of life
The shadow shows its worth.
