Sheldon Nidle's Update from the Galactic Federation of Light and the Spiritual Hierarchy

2 Ik, 5 Zac, 5 Caban ~ February 16, 2010

Selamat Balik! We return with more to discuss with you. At present, several important events are being readied to manifest. First, is the matter of your new gold-based banking system. This fairer and more transparent financial system is already being secretly implemented in a number of nations. These test runs are proving to be quite successful and this opens the door for its general acceptance by your world. The series of messages is being delayed by the actions of the failing US Federal Reserve Bank, which is still able to do hatchet jobs on any financial "upstart" attempts. This institution is aided in these attacks by several closely aligned Central Banks. However, these activities are soon to cease as the Fed sinks deeper into bankruptcy. The huge amount of gold to back the new currencies and the easier-to-implement international banking rules are catalyzing a global landslide of support for the changes. Second, is the global debt-forgiveness program. Nearly 200 nations signed on to this worldwide project. The objective is to start off the new system with a tabula rasa since most debt was incurred fraudulently.

In conjunction with this is the continuing work to collapse a number of major governments that have become part of a global corporate state run by the dark cabal. These instruments of power are also approaching bankruptcy. When these regimes were put in place, a dissolution clause was incorporated in their "secret compacts," which allows for these crippled states to be replaced by temporary caretaker

administrations. A series of court-approved documents sanctions our Earth allies to appoint the successors. These legal instruments set up the framework for the lawful removal of several governments, including that of the US. In consonance with this, certain immoral and illegal international activities of these dark regimes can also lead to their removal, and in the same vein, lawful constitutional restoration is stipulated in the US Constitution. America is the chosen child of Ascended Masters like Saint Germaine and Hilarion. She plays a central role in the unfolding of the transitional world that is to welcome our first contact mission, and it is thus essential that America return to her original course.

This brings us to global prosperity. Around three centuries ago Saint Germaine perceived that a huge fund would become necessary to bring the world out of want. He therefore maneuvered the ruling heads of Europe to establish his World Trust, which was divided into three parts: the first permitted these rulers to set up secret national trusts under the banner of Saint Germaine; the second was a non-disclosure trust that was to accumulate and then mature at the start of the 21st century. Its selected benefactors were to be "Light Workers," and this trust was to be open for payment during two cycles each year, after Easter and Christmas. While it was maturing, these cycles would add to the Trust. The third was to fund the Saint Germaine Foundation, which was to oversee the Trust and ensure that stipulated payments were carried out according to the secret original documents. As you know, the dark cabal is blocking these payments. It fears the consequences of vast sums being disbursed according to Saint Germaine's plans.

Our Earth allies are working with great diligence to ensure that these funds get distributed to the proper recipients. A long struggle underway since the end of WW II is coming to an end. The exceptional greed and astonishing stubbornness of the dark ones has delayed this program from the start, and in the last four decades their level of hubris reached dictatorial proportions, greatly increasing their chances of success. However, you now have a global monetary system that has imploded and which, like the Titanic, is sinking into the inky depths of total collapse. On the bright side, this development opens up an opportunity to dislodge those who so willfully stand in the way of your world's much needed prosperity. The coming regime changes are allowing our Earth allies to push deliveries forward, coupled with the release of the sequestered technologies. These subjects will be part of the announcements that the caretaker governments are to broadcast formally once they assume power. These matters tie in with first contact. We are committed to getting you to the point where the machinations of the dark are eliminated, and this operation is indeed approaching an imminent resolution. In the meantime, Mother Earth is busy establishing the groundwork for swiftly transforming the surface of the planet. At present the surface world is a three-dimensional reality, while Inner Earth is five-dimensional. The frequency dichotomy point, or layer, occurs where the gravitational discontinuity is located, approximately 800 miles beneath the surface. This area has been assaulted by your secret governments since before WW II. The Agarthans have been watching this activity closely: it was a project originally begun by the Anunnaki and their dark off-world cohorts, and in the late 1990s a number of dark governments continued these aggressive endeavors.

This covert conflict has taken something of a back seat in the past few years as the dark turned increasingly to using climate change and other aspects of Mother Earth's changes as potential weapons to terrorize you. The dark cabalists also used the chemtrails project to influence your health by messing with your many physical changes. We are coordinating our efforts with our Earth allies to minimize much of what they are dabbling in; also, these technologies interfere with Mother Earth's rising consciousness and thus need initially to be somewhat neutralized. We have, more frequently, used our atmospheric scout ships to vaporize the more deadly output of these dark projects, and have grounded the cabalists' scout ships and certain of their weapons-carrying ships to express our deep displeasure at their ongoing nefarious policies.

The present moment in your history is a great turning point. The dark has controlled this reality for nearly 13 millennia. This control included the manipulation of not just you but also Mother Earth. Now, you are beginning to transform into fully conscious Beings of Light. This process is a sign from Heaven to this dark cabal that its "moments in the Sun" are ending. It is time to comprehend what is going on and simply to let it happen. This capacity seems to be beyond the dark minions. The number of secret programs they possess is vast, but these highly sophisticated (to them) technologies are mere garden tools to us. We have watched a multitude of primitive planets grow over millennia into fellow Galactic Federation members, and this experience endows us with the knowledge to recognize that in your case "this too will come to pass."

The reality you live in is transforming at a rapid clip. Your world is under the aegis of the divine plan and Heaven's and our guidance. The dark cabalists continue to kid themselves about reversing or at least altering what is occurring, but this belief is daily being challenged, proving that the Divine is to have her sacred way. Despite the evidence, the dark ones remains adamant that they can find a solution before it is too late. We have been telling them over the course of many face-to-face meetings that their strategy is doomed, as first contact and the return to full consciousness is a sacred given. What is happening to this reality precludes any sudden reversals, but all this falls on deaf ears. So, what is brewing is bound to shock them. Just know that the changes are imminent and that the party is getting ready to roll!

Today, we carried on our discussion about current events. The miracles promised by Heaven are ready to manifest; the UFO disclosure is about to happen! Get ready, and be available at a moment's notice to do your part in carrying out the sacred ways of Heaven. Know, dear Ones, in your Heart of Hearts that the countless Supply and never-ending Prosperity of Heaven are indeed Yours! So Be It! Selamat Gajun! Selamat Ja! (Sirian for Be One! and Be in Joy!)
